Assembly and operating instructions

1 Foreword

Foreword

We are pleased that you have chosen our product. By purchasing a CARAVITA product, you have opted for quality, made from the best materials and designed to the highest standards. Read the instructions in this document carefully to set up the product safely. Always observe the safety instructions listed and do not carry out any modifications to the product yourself.

2 Introduction

2.1 Safety Information

It is important for the safety of persons to follow the instructions. Failure to observe the instructions may result in personal injury and/or damage to property when using the product. Failure to comply shall release Caravita from liability.

Warnings are labelled with this or a similar symbol in the instructions.

- Read the instructions before assembly and use of the product!
- Observe the safety, setting, operating and maintenance instructions!
- Give the instructions to the new owner when passing on the product!
- Keep the instructions until the product is disposed of!

2.2 Information on the target group and application of the instructions

Target group

The instructions are intended for persons who assemble, operate, maintain and/or service the product.

For assembly, knowledge of occupational safety, accident prevention regulations, handling ladders, installation of fastening materials, commissioning and operation of the product must be available.

If one of these qualifications is not available, a specialised installation company must be commissioned.

Contents

These instructions belong to the following product:
Caravita Supremo

2.3 Explanation of the signal words

DANGER

Indicates an imminent danger that will result in death or serious injury.

WARNING

Indicates a potentially imminent danger that could lead to death or serious injury.

CAUTION

Indicates a possible imminent danger that could lead to minor injuries.

NOTE

Indicates a potentially imminent situation that could lead to product or property damage.

2.4 Basic safety instructions

The safety instructions and warnings listed serve to protect your health and the product. The instructions must be read carefully and followed.

Damage caused by improper handling or failure to follow the instructions is not covered by the warranty. No liability is assumed for consequential damage!

General safety instructions

DANGER

Danger to life and limb if the sunshade falls over

The sunshade can tip and fall over due to weather conditions or mechanical impact with its heavy weight.

- Only use the sunshade for its intended purpose.
- In strong winds and thunderstorms, dismantle the sunshade or do not set it up.
- Do not climb on the sunshade.
- Do not leave children near the sunshade without supervision.
- Do not use the sunshade without a suitable stand.

Introduction

- Do not leave the sunshade unattended.
- Only set up the sunshade when it is fully raised.

DANGER

Fire hazard due to flying sparks

The fabric of the sunshade is flammable.

DANGER

Danger to life and limb from lightning strikes

The sunshade can become a lightning conductor.

- Never seek shelter under a sunshade during thunderstorms.

DANGER

Choking hazard due to packaging material

Plastic films, polystyrene parts and small parts from the packaging can become dangerous toys for children.

- Keep children away from small parts.
- Do not leave packaging material lying around carelessly.

CAUTION

Risk of injury due to tipping

Carelessness can cause the sunshade to tip over with its heavy weight.

- Two people are always required for assembly.
- The base must be designed with sufficient ballast to prevent the closed sunshade from tipping over in strong winds.

WARNING

Risk of injury to uninvolved persons

If people are within the opening radius of the sunshade canopy, they may be injured if they are not careful when opening the canopy.

- Before opening the sunshade roof, ensure that no bystanders are within the opening radius of the sunshade roof.

Operation

Operating a defective product can injure people and/or damage neighbouring parts.

- ▶ The product may only be operated if it is in perfect technical condition.

Assembly preparation

Incorrect assembly can impair the safety, function and service life of the product. Persons may be injured and/or the product or neighbouring parts may be damaged.

- ▶ The specified assembly steps and their sequence must be observed.
- ▶ The product may only be installed if it is in perfect technical condition.
- ▶ The assembly substrate must be checked for load-bearing capacity before mounting.

3 Information about product

Product description

The Supremo sunshade is not only a welcome guest in private gardens and restaurants, but is also suitable for kindergartens and public facilities. With its ingenious sliding mechanism, the Supremo centre-pole sunshade opens and closes much more easily and quickly than other sunshades – even with large spans.

The fabric of the sunshade roof is made of easy-care and washable material. The shape of the sunshade roof is available in different designs.

Technical data

CARAVITA products are exclusively customised and made to measure. Dimensions and weight vary depending on the model version.

The exact weight and size of the product can be found on the order or delivery note.

3.1 Intended use

The following information applies to the following product:

Caravita Supremo

The product is an external sun shading system that is used to protect against heat and glare in summer. The product is free-standing and is used to shade open spaces.

The product is to be used as sun protection and not as rain protection.

Misuse can result in considerable hazards.

Additional loads on the product due to suspended objects or cable tensioning can lead to damage or falling and are therefore not permitted. Caravita is not liable for any damage resulting from this.

Intended use also includes observing these instructions and complying with the maintenance specifications contained therein.

3.2 Part name

4 Assembly

We are happy to answer questions about assembly by e-mail or via our service hotline. The contact details are listed on the first and last page of this document.

4.1 Unpacking the product

DANGER

Choking hazard due to packaging material

Plastic films, polystyrene parts and small parts from the packaging can become dangerous toys for children.

- Keep children away from small parts.
- Do not leave packaging material lying around carelessly.

NOTE

The cardboard box is reused as a space-saving storage box for storing the sunshade.

- Do not cut or tear the box when unpacking.

Remove the sunshade from the packaging

- 1 Check the packaging for damage.
- 2 Carefully cut the adhesive tapes and plastic straps with a knife without damaging the sunshade in the box.
- 3 Carefully unpack the sunshade and the individual parts.
- 4 Check the contents of the packaging for completeness and defects.

NOTE

In the event of obvious defects in the packaging or incompleteness of the delivery, the specialised dealer, forwarding agent or manufacturer must be informed immediately in order to assert claims for damages and compensation.

- 5 Properly dispose of the remaining packaging material (polystyrene, plastic).

4.2 Transporting the product

The product can be transported easily and without additional aids.

Due to the weight and size of the product, 2 people are required for transport.

NOTE

Material damage due to cracks and bent struts

Careless transport can damage the sunshade roof.

- Do not pull the sunshade over the ground by the sunshade cover or the protective case.
- Do not carry the sunshade by individual sunshade struts.

Hold the sunshade with both hands during transport.

4.3 Scope of delivery

1	1 x linkage with lever	5	1 x cover cap for sunshade roof
2	1 x sunshade roof	6	1 x webbing
3	1 x protective case	7	1 x fastening screw for sunshade roof cover
4	1 x telescopic push rod (optional)	8	1 x assembly and operating instructions

INFO

- Check scope of delivery according to delivery note!
- Check parts for intactness!
- Compare the situation on site with the order data!
- Interrupt assembly and contact CARAVITA if parts are damaged or if the specifications do not correspond to the order

4.4 Installing mobile stands

The product is difficult to move without additional aids due to the weights. Roller sets can be fitted or the product can be moved with a pallet truck for relocation.

WARNING

Crushing due to falling plates.

Fingers or feet can be crushed by heavy stone slabs, e.g. when tilting the sunshade stand.

- Always secure the sunshade stand when moving it.
- Do not reach under or into open spaces while moving.
- Do not place any limbs under the sunshade stand.
- Observe the weight limit for roller assembly of max. 320 kg total weight for stand and sunshade.
- Observe the weight limit for assembly with floor levelling feet of max. 550 kg total weight for upright, sunshade and additional weights.
- Ensure that the route is free of obstacles.

WARNING

Crushing of limbs in sunshade parts.

Fingers or feet can be crushed if they are trapped between the roller and the stand or floor.

- As soon as the mobile stand has reached its final position, press in the castor lock.
- Observe the weight limit for roller assembly of max. 320 kg total weight for stand and sunshade.
- Observe the weight limit for assembly with floor levelling feet of max. 550 kg total weight for upright, sunshade and additional weights.
- Ensure that the route is free of obstacles.

WARNING

If mobile stands are connected and operated with a mobile cable, the cable must be suitable for damp rooms and permanently protected against damage and crushing. In any case, the power supply must be disconnected at all poles by pulling out the plug before moving the mobile stand.

- 1 Place the plate stand at the desired installation location and align it.
- 2 Screw in the 4 rollers* or the 4 floor levelling feet and tighten with the screws supplied.

- 3 If floor levelling feet have been fitted, use them to level the plate stand.

- 4 Insert the concrete slabs (to be provided by the customer) into the openings provided.
- 5 Fit the cover for Dublin. (optional)

4.5 Set up and attach the sunshade

INFO

- For safety reasons, set up the sunshade with at least 2 people.
- Prepare the mobile stand or base sleeve according to the manufacturer's instructions.
- The mobile stand must be designed with sufficient ballast.
- Provide a stepladder.
- Have the stainless steel screws and the Allen key included in the scope of delivery ready.
- If there is no telescopic arm, remove the protective case before setting up.

CAUTION

Risk of injury due to tipping

Carelessness can cause the sunshade to tip over with its heavy weight.

- Two people are always required for assembly.
- The base must be designed with sufficient ballast to prevent the closed sunshade from tipping over in strong winds.

Assemble the aluminium canopy on the sunshade roof

- The protective case has been removed and the sunshade roof is lying on a clean surface.

- 1 Insert the fastening screws into the aluminium cover cap.
- 2 Place the aluminium cover cap on the tip of the sunshade roof as shown.

- 3 Tighten the fastening screws with a cordless screwdriver.

Assemble the pole on the base

► The pole is positioned horizontally next to the base.

- 1 The 1st person inserts the lower end of the pole into the standpipe while the 2nd person raises the sunshade.

- 2 Lift the erected pole into the standpipe in pairs.

- 3 Anchor the sunshade pole securely in the standpipe.

- 4 Tighten the clamping screws

5 Putting into use

WARNING

Risk of injury due to improper use of the sunshade. Improper use can result in personal injury.

- Do not reach into openings on the product during commissioning.
- Do not hang any foreign objects on the sunshade that are not expressly mentioned in the instructions.
- Remove snow or other external contamination.
- Close the sunshade in case of high wind loads.
- Before opening the sunshade roof, ensure that there are no bystanders within the opening radius of the sunshade roof.
- Keep children away from the controls.

CAUTION

Material damage due to improper use of the sunshade.

Improper use can damage the sunshade.

- Do not light an open fire under the sunshade.
- Remove snow or other external contamination.
- Close the sunshade in case of high wind loads.
- Do not hang on the sunshade or other components.
- Sunshade can tip over if you are not careful.
- Do not hang any foreign objects on the sunshade that are not expressly mentioned in the instructions.
- Remove obstacles from the travelling area.
- Do not force the sunshade open

- 1 Remove the protective case.
- 2 Open the sunshade, see chapter ["Opening the sunshade roof", page 36](#)
- 3 Close the sunshade, see chapter [„Opening the sunshade roof“, page 36](#)
- 4 Attach protective case, see chapter

6 Operation

CAUTION

Risk of crushing due to carelessness when operating!

Persons in the travelling area may be injured.

- Keep travelling area clear of people!
- Keep children away from the controls.

6.1 Open the sunshade roof

WARNING

Risk of injury to uninvolved persons

If people are within the opening radius of the sunshade canopy, they may be injured if they are not careful when opening the canopy.

- Before opening the sunshade roof, ensure that no bystanders are within the opening radius of the sunshade roof.

The plastic nets attached to the struts serve as protection against transport damage. If the sunshade roof is open, these can be carefully removed with a knife or scissors.

INFO

When removing the plastic nets with scissors or a knife, do not damage the fabric of the sunshade roof.

NOTE

Material damage due to incorrect pulling apart of the struts

- If the sunshade does not open or close easily, call our service hotline or rectify the problem via the chapter [see chapter 8/page 21.](#)

- ▶ The sunshade is securely fastened in the base sleeve or mobile stand. The strap
- ▶ is removed.
- ▶ The protective case has been removed.

1 Check the stability of the sunshade:

- The sunshade pole is well anchored in the standpipe. The clamping screws are tightened.

2 Pull the struts slightly outwards.

► The struts are loosened.

3 Press the unlock button.

4 Push the lever upwards.

► The sunshade roof opens slowly.

5 Set the lever to the „CLOSED“ position

6 Push the lever upwards with momentum until the lock engages.

6.2 Close sunshade roof

- 1 Set the lever to the "OPEN" position.
 ► The sunshade closes slowly.

- 2 Push the lever all the way down or carefully press the sunshade struts against the pole.
 ► The sunshade closes completely.

- 3 Pull the sunshade fabric out from between the struts to prevent it from becoming trapped or damaged.

- 4 Press the sunshade roof onto the pole until the latch on the lower crown engages in the lock.

INFO

The latch only engages when there is no fabric between the struts.

- 5 Secure the sunshade against unintentional opening with a padlock on the latch.

- 6 Secure the closed sunshade roof with the strap.

- 7 Cover the sunshade roof with the protective case.

INFO

The telescopic push rod is used for easier operation during activities such as pulling over the protective case. A telescopic push rod must be ordered separately, it is not included as standard.

6.3 Using the telescopic push rod (optional)

- 1 Attach the key ring to the zip of the protective case.

- 2 Open the knurled screw on the telescopic push rod.

Operation

- 3 Pull the telescopic push rod to the required length.

- 4 Tighten the knurled screw on the telescopic push rod.

- 5 Insert the telescopic push rod into the pocket of the protective case.

- 6 Cover the protective case with the telescopic push rod.

7 Close zip.

8 Loosen the eyebolt of the telescopic push rod in the key ring on the zip of the protective case.

7 Maintenance and care

Sunshade fabric

NOTE

Material damage to the sunshade fabric due to incorrect cleaning and cleaning agents

The acrylic fabric of the sunshade roof is impregnated and requires special cleaning and cleaning agents.

- Always wash the sunshade fabric in cold water.
- Do not use a high-pressure cleaner to clean the sunshade fabric.
- Avoid strong friction during cleaning, e.g. with hard brushes or sponges.

Cleaning the sunshade fabric

- If possible, remove fallen leaves (foliage) immediately (starting point for microbial infestation).
- Dry-brush out the dirt at regular intervals.
- Treat light stains with lukewarm water and a soft brush.
- Treat stubborn stains by hand washing with a little commercial mild detergent, rinse well with clear water, leave to dry and treat with impregnating agent.

Bracket and pole

Clean and maintain bracket and pole

- Wash the surfaces with a gentle cleaning agent.
- Refresh the stainless steel parts with commercially available stainless steel polish.
- Use spray oil or silicone spray at regular intervals to protect joints and rollers against corrosion.

Storage

8 Storage

NOTE

Material damage due to abrasion of the sunshade fabric

Permanent flapping in the wind can damage the sunshade fabric by rubbing against the struts. No claims for damages can be asserted against CARAVITA for this.

- Always secure the closed sunshade roof with the strap.

NOTE

Material damage due to mould

If the protective case is pulled over the damp fabric, mould will form.

- Only cover the protective case when the fabric is completely dry.

The sunshade can be stored outdoors and in a protected, dry room. For both options:

- Secure the sunshade roof with straps.
- Allow the fabric to dry completely before storing.
- Put the protective case on.

Outdoor storage

CAUTION

Risk of injury due to tipping

Carelessness and strong winds can cause the sunshade to tip over with its heavy weight.

- The mobile stand must be designed with sufficient ballast to prevent the closed sunshade from tipping over.

Storage in a dry room

The following applies to storage in a dry room:

- Pack the sunshade in the box in which it was delivered.
- Store the sunshade horizontally in a dry room.

9 Troubleshooting

If the sunshade malfunctions and cannot be rectified with the help of the following instructions, please contact us via our CARAVITA service hotline. You will find the contact details on the first and last page of these instructions.

WARNING

The following malfunctions can occur when using the sunshade:

Problem	Cause	Rectification
The sunshade roof can no longer be opened or closed.	Safety lever in "close" position	Safety lever in "open" position
The sunshade roof cannot be closed	Sunshade pressed very hard into lock.	Release the lock by pressing the operating lever at the same time.
Safety lever on operating handle without function or without operating resistance	Operating mechanism in the lever defective	■ Replacing the operating handle.
Sunshade is difficult to open	Struts are too close to the pole	■ Loosen the struts by pulling them out and then operate the lever.
The zip of the protective case is jammed.	The fabric of the sunshade fabric has got caught in the zip teeth. The zip is dirty.	■ Release the fastener with slight forwards and backwards movements. ■ Rub a little curd soap into the zip fastener.

NOTE

If a fault is not included in the list or if you are unsure, contact a specialist dealer.
