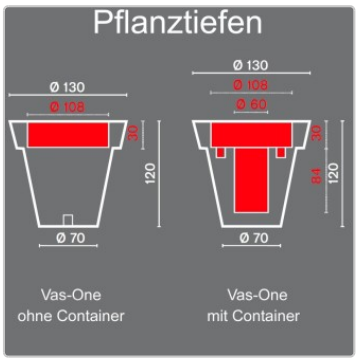
Delivery time: 3 - 4 weeks



Product information

Dimensions / Technical data:

Approx. dimensions: Ø top 130cm, Ø bottom 70cm, height 120cm

Planting depth approx.: Ø top 108cm, depth 30cm (recommended for seasonal planting)

Material: polyethylene, translucent, weather-resistant and unbreakable

Optional lighting:
Cold white LED, 1250 lumen, 6000 Kelvin, 3 meter cable, black
RGB LED with remote control, 3 meter cable, black
RGB LED with rechargeable battery. Control via Bluetooth & app

Protection class:IP67

Cable feed: 3 meters, black

Special feature:
Double-walled planter
Clean Fighter surface - easy cleaning of the surface thanks to new sealant
Suitable for indoor and outdoor use
Very suitable for professional use in restaurants and offices
Resistant to temperatures (-35ºC to +80ºC)
Impact and wear resistant. 100% reusable

Available accessories: 3 x stainless steel Aisi 316 floor mounting plate as anti-theft protection

Product description

Product information

Vas-one Family is a series of pots that reinvents the classic shape of the pot in different sizes, from a miniature version to scale versions. All sizes from 50 cm are also available in a version with built-in light with LED RGB system.
The pot is made of linear low density polyethylene produced by rotational molding. Opal diffuser with UV protection, 100% recyclable, spinneret dyed. High degree of mechanical strength.

The giant vase "BIG BO" was designed by Luisa Bocchietto and represents the evolution of the famous illuminated VAS -ONE (her previous project of 2001), already selected by Maison et Objet at the launch of the trend "Esprit de Contradiction" in 2004. This object has known over time the versions in many dimensions and today this new exceptional dimension is introduced, making it the largest vase in industrial production, designed to furnish large urban spaces and places of communicative impact. By pushing the technology of rotational molding to its limits and fully exploiting the dimensions of a new custom-built production machine that can cast up to 3.5 meters in diameter, SERRALUNGA wants to underline its undisputed leadership in the field of design vases with this new extreme dimension of the object that has now become an icon of its production.

Serralunga Clean Fighter

SERRALUNGA presents CLEAN FIGHTER, a new innovative composite for fast and efficient cleaning.

As part of Serralunga's ongoing research and innovation activities, a new compound has been developed: Clean Fighter.

Clean Fighter is an innovative composite that allows fast and efficient cleaning of all Serralunga furniture, flower pots and furnishings in standard colors. Less time spent cleaning is the result. CLEAN FIGHTER is not needed for products in matt or glossy finish.

Clean Fighter is absolutely versatile. Particular feature is the ability of the material to adapt to different shapes.

about Serralunga

The first in Europe to develop rotational molding technology, the first to introduce the design jug and conceive the oversized jug. The first to design the illuminated jug, the first to exhibit an industrial vase in a museum and the first to develop new painting technologies with patterns.

Those who choose Serralunga can recognize and appreciate originality.

A FAMILY BUSINESS WITH HEART

THE HERITAGE
Serralunga was founded in Biella in 1825 and is the name of the family that has been the creative and entrepreneurial heart of the company for six generations, producing modern outdoor furniture.

The company was founded as a tannery and then moved to leather processing for industrial purposes. The real revolution came with the processing of plastic and then with the rotational molding technology imported from the United States, which has produced countless Italian design objects such as outdoor lighting and contemporary furniture, all made in Italy.

MADE IN ITALY
Serralunga continues the excellence that has long been associated with the "Made in Italy" label, while offering new ways of living that allow us to relax and unwind with furnishings that enrich our lives.

Product information

CULTURAL INNOVATION
Serralunga is known for pushing the boundaries of materials, technologies and aesthetics with its sense of innovation and craftsmanship to create groundbreaking products that both inspire and delight.
