Product information

VONDOM CHRISMY Design Christmas tree LED-Outdoor 50

Art.Nr.: VON203 / GTIN: 8412524189154 / manufacturer: Vondom

283,50 €

Regular retail price ~~315,00 €~~ (you save 31,50 €)

incl. 19% VAT incl. Shipping

Delivery time: 2 - 4 weeks

Product information

Dimensions / Technical Data:

Dimensions: Width 38cm, Depth 26cm, Height 50cm

Diffusor: Linear polyethylene, translucent, weatherproof + unbreakable

Foot: Steel, powder-coated with height-adjustable feet

Illumination: LED white 4000-4500 Kelvin or multi colour 6500 Kelvin, 16-72 Watt max. depending of model, Power supply IN: 100-240 Volt AC, 50-60 Hz

Illumination available:
LED white, 4000 - 4500 Kelvin
LED-RGB illumination with remote control
LED-RGB illumination with remote control and battery + charger. Charging time 4 hours, operating time 6 hours, 500 cycles
LED-RGB DMX illumination with remote control (WIFI Access Point needed)
LED-RGB DMX illumination with remote control and accu + charger. Charging time 4 hours, operating time 6 hours, 500 cycles (WIFI Access Point needed)

Remote Control: Reach 10-15 Meters

Protection class: IP65

Cable supply: 2 meter, white (plug optional for EU, AUS, UK or USA)

Characteristic:
Suitable for use in indoor and outdoor areas
With lockable drainage for indoor use
Very suitable for professional use in restaurants and offices

Product information

UVI-resistant. Factor UV8, equal to 8,000 hours of sunshine in Florida
Resistant to temperatures (-60 ° C to + 80 ° C)
Shock and wear resistant. 100% reusable

Available accessories: DMX Wireless Home WIFI Access Point

DMX Home WIFI is an Acces Point through which you can control all VONDOM products with an IOS or Andriod tablet or smartphone. You can create individual and special environments. Control the entertainment lighting of each Vondom product, such as Furniture, planters and lights individually or in a group. We are happy to advise you in detail, call us!

NOTE:
The product photo (black and white) is a rendered image that does not represent the beauty of the product and the external appearance of the lighting. We are happy to send you on request image photos.

Design: Teresa Sapey

Product description

CHRISMY the new Christmas piece of VONDOM by Teresa Sapey.

Inspired in natural, organic and elegant shapes that rise towards its peak in each of its silhouette to-and-fro movement.
Its interior lighting creates a true enveloping atmospheres to be able to enjoy them in different spaces.
A renewed classic, refined in its timeless modernity, easily adaptable.
Pure visual magic achieved through its logical continuation.

Available in the following sizes

H: 25 cm / B 19 cm / T 13 cm
H: 50 cm / B 38 cm / T 26 cm
H: 100 cm / B 75 cm / T 32 cm
H: 150 cm / B 110 cm / T 40 cm
H: 200 cm / B 150 cm / T 54 cm

FAQ Chrismy

VONDOM CHRISMY – FAQs on LED Lighting, Controls and Outdoor Use

Are VONDOM Christmas Trees Suitable for Outdoor Use?

Yes. CHRISMY and FOREST are designed for both indoor and outdoor use. Their materials are UV-resistant and weatherproof. LED versions intended for outdoor installation have an IP65 protection rating.

IP65 means that the protected components are dust-tight and resistant to water jets, making them suitable for typical winter weather conditions.

All electrical connections and accessories must also be installed and used according to their respective protection ratings.

Product information

Which LED Lighting Option Should You Choose?

When choosing an illuminated designer Christmas tree, the lighting system is a key consideration. The options differ not only in colour but also in how the lighting can be controlled.

White LED – Elegant, Consistent White Lighting
The White LED version emits a fixed neutral white light with a colour temperature of approximately 4,000–4,500 K.

As only one white tone is available, no remote control is required or supplied.

The lighting is powered through a plug-in cable and can be switched on and off using a suitable switched socket or timer.

Our recommendation: Choose White LED for elegant, uniform Christmas lighting without colour changes.

RGB LED – 3 White Tones, 9 Colours and Custom Lighting Effects
The RGB LED version offers considerably more flexibility.

Choose between warm white, neutral white and cool white, plus nine additional colours.

The included remote control allows you to:

- select individual fixed colours,
- activate automatic colour sequences,
- adjust the speed of colour transitions,
- control brightness.

This makes it easy to adapt the lighting to different surroundings, occasions and preferences.

If you own several illuminated VONDOM products, you can assign a different fixed colour to each one.

Our recommendation: Standard RGB LED is more than sufficient for most residential settings and many commercial installations.

WiFi and DMX – Synchronised Lighting for Multiple VONDOM Products
Advanced lighting control is particularly useful when several illuminated VONDOM products need to change colours automatically and in perfect synchronisation.

Standard RGB LED also offers automatic colour sequences. However, when several products are operated independently with their own remote controls, their colour transitions gradually fall out of sync.

Visible differences may appear after just a few minutes.

For example, if five CHRISMY Christmas trees or a combination of illuminated trees, planters and lounge furniture should display identical colour changes, a compatible central control system is recommended.

VONDOM Access Point HOME – Smartphone and Tablet Control
Compatible WiFi control requires the separately available VONDOM Access Point HOME.

It allows you to operate the lighting through a dedicated smartphone or tablet app.

Access Point HOME can control up to ten compatible products within an approximate range of 12–15 m. Actual range depends on local conditions.

Multiple illuminated objects can therefore be controlled together with synchronised colour changes.

Product information

Control is provided through the app rather than the individual remote controls.

VONDOM Access Point PROFESSIONAL – Professional Lighting Integration

VONDOM Access Point PROFESSIONAL is designed for larger installations and integration with professional building automation systems.

It is particularly relevant when lighting needs to be operated through a central control console or integrated into a suitably planned KNX or bus-based system.

The exact technical integration must be coordinated with the existing building automation infrastructure.

Our recommendation: Choose advanced WiFi or DMX control only when you genuinely need these functions. For fixed lighting colours, standard RGB LED is usually the most practical choice.

Battery or Mains Power – Which Is Better?

The battery-powered version provides approximately 6–8 hours of operation and requires around 4 hours for a full recharge.

The battery is designed for approximately 500 charging cycles. A charger is included. The appropriately equipped battery version also features IP65 protection.

When Do We Recommend the Battery Version?

Battery power is especially useful where no suitable permanent electrical supply is available.

Typical applications include:

- events and temporary installations,
- receptions and presentations,
- short-term decorative displays,
- locations without a suitable power connection.

For Christmas lighting operated for many hours each day over several weeks, we generally recommend the mains-powered version.

Our advice: Do not choose battery power simply for its apparent flexibility. Where a suitable power supply is available, the wired version is usually more convenient for continuous use.

How Stable Is VONDOM CHRISMY?

CHRISMY features a sturdy steel base with adjustable feet to compensate for minor unevenness in the ground.

Optional stainless steel ground-fixing plates provide additional security. They replace the adjustable feet, extend several centimetres beyond the base and feature mounting holes for anchoring CHRISMY securely to the ground.

How Do You Clean and Maintain CHRISMY?

Cleaning is straightforward. For normal dirt, use a soft cloth, water and a mild detergent. More stubborn dirt can be removed from the robust plastic surfaces with a pressure washer, provided this is permitted for the specific product version. Avoid aggressive cleaners, abrasives and hard brushes.

about Vondom

Product information

Vondom stands for a modern lifestyle. Vondom indoor & outdoor furniture is designed with passion for people who appreciate innovation and quality - people like you who love trends and demand the best.

Focus on design
Design is the key to our success. With each new collection, we create spaces full of glamor and uniqueness. Vondom furniture brings life and elegance to every room, so you can enjoy life to the full.

Global designers
Vondom collections are created in collaboration with international designers such as Fabio Novembre, Karim Rashid and many more. Their passion for modern forms and culture makes every piece of furniture an exclusive work of art.

Sustainability & Innovation
Sustainability is a core value at Vondom. Vondom is continuously researching new technologies and materials to protect our environment. Vondom shares this knowledge in workshops, exhibitions and events worldwide.

Global success
Vondom is present in over 120 countries, with flagship stores and showrooms around the world, including Valencia, Miami, Los Angeles and Shanghai.
