In our online store, we offer a selection of covers that are characterized by their ease of care and suitability for outdoor use. These covers are chosen 90% of the time because they offer an ideal combination of functionality, feel and comfort. You can easily make your selection using the “Vondom cover” feature.

Of course, we can offer you all covers from the Vondom collection on request. These covers, which are not available in our online store, are particularly suitable for use in regions with a predominantly sunny and dry climate or for indoor use. They impress with their particularly luxurious feel, but usually require more maintenance if soiled.

Product information

Product description

The VASES collection consists of flower pots, furniture and lighting designed by Valencian designer JM Ferrero. His shapes were inspired by diamond cutting and result in pieces with clean shapes and great style that create a great visual impact. These are pieces that can be used in large spaces and become a differentiator for creating different environments. The footrest and base of the VASES bar stool are made of stainless steel. The seat, made of injected plastic, features the original shapes of the collection, inspired by the shape of diamonds. The bar table has a round steel base and a central support made of polyethylene. The table top is made of HPL and is available in a wide range of colors for indoor and outdoor use.

Product information

Indoor or outdoor use?
Illuminated planters have an integrated and lockable water drain. This means they can be used both indoors and outdoors. Planters without lighting do not have integrated water drainage. When used outdoors, several holes must be drilled with a drill both in the base of the planting area and in the subsoil on which the planter stands to prevent waterlogging.
