Hyperion

Hyperion carries the heat and the good moments to the outside

With Hyperion starts a new way of heating and elegance for all outside spaces. A outdoor gas heater that combines productivity and an inspiring design, fully capable of unite itself to any decorative element and to the nights spent with friends and family. Available in several shapes and colours, with the mobility required to transport it, it is the adjuvant you were looking for to take maximum advantage of all the spaces you have.

Warmth of the fire with a unique design

We have created Hyperion to be the perfect ally for all the stories narrated during the night, all the plans made for the future and all the memories from the past, that can make us smile and brighten our eyes, always with the cozy flame of Hyperion as background.

The power of the flames in your hands

Very simple to use and pretty handy. Our outdoor gas heater, produced with the toughest materials and easy to handle, works with an intuitive remote control, allowing you to connect, disconnect and change the intensity of the heat emanated by Hyperion, as well as to know the ambient temperature.

The temperature is available through the Wifi Box option in the mobile application.

The same model with three distinguished personalities

Tile-Hyperion

The Tile-Hyperion has its charm in the details and geometry narrowly drawn that make the product a special piece of art. The flame gracefully flutters and demonstrates its power over the spaces and lines cutted on purpose.

Bliss-Hyperion

Romance becomes even cosier with the new Bliss-Hyperion, bringing with it a new source of inspiration for those around you.

Samba- Hyperion

Brazil inspires Samba-Hyperion and the sensuality of its dancing flame invades our souls and takes us directly to the Brazilian heat.

Hedges- Hyperion

Hedges is an more intense incarnation of Hyperion. Dynamic lines and a dramatic personality, makes your presence even more remarkable.
