### Product description

---

The cushion chest EL PECHO made of weather-resistant HPL material in white or anthracite is the elegant accommodation for all your cushions and pillows - and functional sideboard at the same time, and where you use it: in your garden. The ingenious design ensures good ventilation for the stored cushions, so nothing stands in the way of use in all seasons. Gas struts facilitate opening and prevent the lid from accidentally tipping over. Due to the simple design and the HPL material used, the cushion chest EL PECHO fits seamlessly into any of our outdoor collections - whether RIVA, RIVA Lounge, JIG or TENSION. Many special sizes available on request.

## Conmoto design furniture

In reference to a measure of time used by composers, "conmoto" describes the tempo of a musical movement and means "in motion". It transports the claim to the dynamics and development of the company, which is aptly reflected in the company claim Soundful Living.

Johannes Wagner founded conmoto in 1997. His first product: stainless steel fireplace cutlery. His goal was to offer cutlery that was both functional and beautiful.

The assortment and the field of activity of conmoto has expanded considerably in the last 20 years. Not only has conmoto expanded its collaboration with renowned designers and produces the highest-quality designer furniture for indoor and outdoor use, for several years the company has also been active in the project sector, developing holistic room concepts for major clients ranging from The Ritz Carlton to Rolls Royce and Borussia Mönchengladbach. Since 2019, the company owns its own manufactory near Münster in which a large proportion of its own products are manufactured.

Johannes Wagner - founder and managing director of conmoto - has always remained true to his goal and philosophy of combining functionality with beauty.

Conmoto stands for timeless designs and the highest quality - from the materials used to the workmanship.
