In our online store, we offer a selection of covers that are characterized by their ease of care and suitability for outdoor use. These covers are chosen 90% of the time because they offer an ideal combination of functionality, feel and comfort. You can easily make your selection using the “Vondom cover” feature.

Of course, we can offer you all covers from the Vondom collection on request. These covers, which are not available in our online store, are particularly suitable for use in regions with a predominantly sunny and dry climate or for indoor use. They impress with their particularly luxurious feel, but usually require more maintenance if soiled.

Product description

The Stones outdoor furniture collection, designed by Stefano Giovannoni, impresses with its organic shapes. As the name suggests, it seems to be found in nature itself, creating synergies between the natural and man-made landscape. Stones fit perfectly into any environment and, thanks to their material and original shape, convey an elegance all of their own. The individual elements of the Stones collection look like smooth, oversized pebbles. Never before has an outdoor collection blended so incredibly harmoniously into its surroundings: the collection is inspired by the shapes of nature, capturing them in its design and translating them into an artistic context. VONDOM planters

Material properties:

- Material: LLDPE resin, linear low density polyethylene. UL 94 HB
- Manufacturing process: Rotational molding - rotational molding process
- UV-resistant, factor: UV8, corresponding to 8,000 hours of Florida sunshine
- Extremely temperature resistant (-60 to -80 degrees Celsius)
- Impact resistant
- Lightweight
- 100 % recyclable

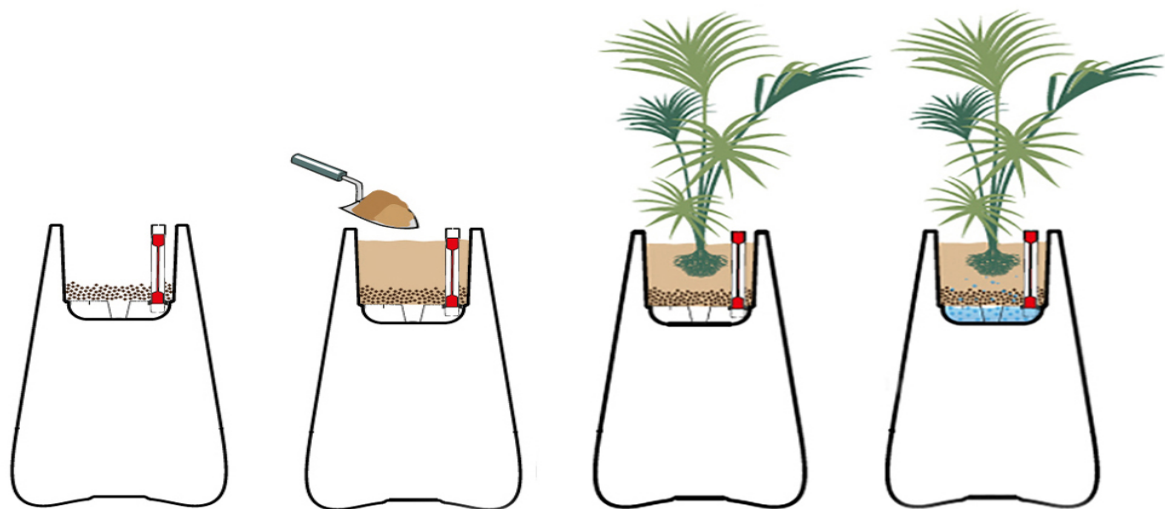

Watering system & integrated wheels:

Planters with a self-watering system are usually supplied with integrated wheels up to a size of 60cm. The integrated wheels make it easier to move the planter. The watering system ensures perfect care for your plants. The watering system is designed for indoor use only and is not suitable for outdoor use.

Indoor or outdoor use?

Illuminated planters have an integrated and lockable water drain. This means they can be used both indoors and outdoors. Planters without lighting do not have integrated water drainage. When used outdoors, several holes must be drilled with a drill both in the base of the planting area and in the subsoil on which the planter stands to prevent waterlogging.
