VONDOM Colors & Covers 2026

Covers/Fabrics Group 1 - 2026

Covers/Fabrics Group 2 - 2026

Covers/Fabrics Group 1-2-3 & Info - 2026

In our online store, we offer a selection of covers that are characterized by their ease of care and suitability for outdoor use. These covers are chosen 90% of the time because they offer an ideal combination of functionality, feel and comfort. You can easily make your selection using the “Vondom cover” feature.

Of course, we can offer you all covers from the Vondom collection on request. These covers, which are not available in our online store, are particularly suitable for use in regions with a predominantly sunny and dry climate or for indoor use. They impress with their particularly luxurious feel, but usually require more maintenance if soiled.

Product information

Available colors: See color palette (translucent = translucent, material as for illuminated planters)

Further properties:
Double-walled planter
Suitable for indoor and outdoor use
Very suitable for professional use in restaurants and offices
UVI-resistant. Factor UV8, equal to 8,000 hours of sunshine in Florida
Resistant to temperatures (-60ºC to +80ºC)
Shock and wear resistant. 100% reusable

Available accessories: SELF irrigation system, with watering of plants for up to 3 months

Product description

Vela collection, designed by Ramon Esteve for Vondom. The aim of this extensive outdoor furniture and plant pot collection is to offer the comfort and quality of indoor furniture without losing its original characteristics. Vela is a modular system with a geometric prismatic element whose uniqueness is based on the balance of its proportions. The elements can be combined with each other to integrate into any space. Their flat volumes give the impression of floating a few centimeters above the floor, and when illuminated, they transform into light architectures. It is made of linear low-density polyethylene by rotational molding. It is a 100% recyclable material that can withstand extreme climatic conditions from -60 °C to 80 °C, is UV-resistant and gives the product lightness. Vondom offers this collection in matt, lacquered or illuminated versions.

about Vondom

Vondom stands for a modern lifestyle. Vondom indoor & outdoor furniture is designed with passion for people who appreciate innovation and quality - people like you who love trends and demand the best.

Focus on design
Design is the key to our success. With each new collection, we create spaces full of glamor and uniqueness. Vondom furniture brings life and elegance to every room, so you can enjoy life to the full.

Global designers
Vondom collections are created in collaboration with international designers such as Fabio Novembre, Karim Rashid and many more. Their passion for modern forms and culture makes every piece of furniture an exclusive work of art.

Sustainability & Innovation
Sustainability is a core value at Vondom. Vondom is continuously researching new technologies and materials to protect our environment. Vondom shares this knowledge in workshops, exhibitions and events worldwide.

Global success
Vondom is present in over 120 countries, with flagship stores and showrooms around the world, including Valencia, Miami, Los Angeles and Shanghai.

VONDOM planters

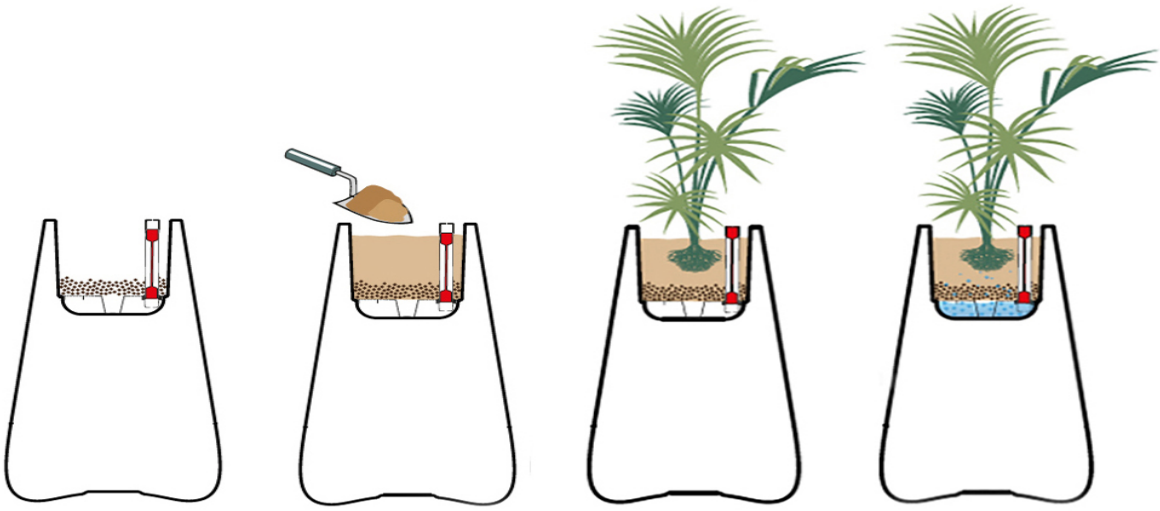

Product information

Material properties:
- Material: LLDPE resin, linear low density polyethylene. UL 94 HB
- Manufacturing process: Rotational molding - rotational molding process
- UV-resistant, factor: UV8, corresponding to 8,000 hours of Florida sunshine
- Extremely temperature resistant (-60 to -80 degrees Celsius)
- Impact resistant
- Lightweight
- 100 % recyclable

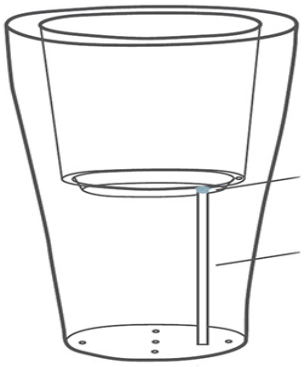

Watering system & integrated wheels:
Planters with a self-watering system are usually supplied with integrated wheels up to a size of 60cm. The integrated wheels make it easier to move the planter. The watering system ensures perfect care for your plants. The watering system is designed for indoor use only and is not suitable for outdoor use.

Indoor or outdoor use?
Illuminated planters have an integrated and lockable water drain. This means they can be used both indoors and outdoors. Planters without lighting do not have integrated water drainage. When used outdoors, several holes must be drilled with a drill both in the base of the planting area and in the subsoil on which the planter stands to prevent waterlogging.
