Wood finish optional:
Solid oak
American walnut solid
bleached oak

Special feature: Stackable

Frame: metal matt black powder coated (RAL9005)

Minimum order quantity: 2 chairs

Design: Runner + Keichel

Product description

OKITO - The aesthetic material connection in minimalist form Due to the low use of materials OKITO chair weighs less than 5 kilos. The heart of the minimalist chair is the solid wood seat. With its CNC-milled recesses, the solid wood seat accommodates the chair frame and backrest. All connections are screwed without being visible on top. The backrest is also realized without visible screw connections. The striking detail of the fascia is an aesthetic feature.

In addition to the ergonomically shaped solid wood parts, seat and backrest, the double bracket of the backrest contributes to the special seating comfort of the chair. When leaning back, the backrest springs back slightly and also follows the twisting movements of the upper body. OKITO provides the sitter with support in any position without restricting his or her mobility.

OKITO can be completely disassembled into its individual parts and can be shipped flat packed. This significantly reduces the size of the packaging. Four disassembled OKITO chairs can be transported in the same freight volume as a single assembled chair. OKITO is designed as a comprehensive product family: Complementing the chair are stools OKITO STOOL and bar stools OKITO BAR in different heights, as well as a table and high table OKITO TABLE. The chair is stackable. A stacking trolley OKITO TROLLEY is available for quantity seating.

About Zeitraum

Home:

ZEITRAUM is at home in the Bavarian foothills of the Alps. It is not so much the local roots that connect ZEITRAUM with our homeland, but rather the knowledge that life in the alpine region has traditionally been characterized by the conscious use of limited resources. The direct dependence on nature shapes ZEITRAUM's sense of responsibility and long-term thinking. The roots of the values lie in the respectful treatment of the natural habitat, which should be preserved for future generations in its diversity as a basis for life and a source of inspiration.

Product information

Longevity:

ZEITRAUM's designs are a tribute to the pure, the purity of the material and the durability of the form. Out of conviction, ZEITRAUM is committed to sustainable action in its entirety, and is committed to the principle that products are repairable, because this is the only way to ensure their longevity over generations. Repairing and maintaining deepens the relationship between man and product. ZEITRAUM has been pursuing the idea of combining design and ecology since its founding in 1990. ZEITRAUM processes only hardwoods from sustainable forestry and does not use any chemical treatment of the wood. The surfaces, left open-pored with biological oils, allow the furniture to breathe and retain its naturalness.
