Covers/Fabrics Group 1-2-3 & Info - 2025

In our online store, we offer a selection of covers that are characterized by their ease of care and suitability for outdoor use. These covers are chosen 90% of the time because they offer an ideal combination of functionality, feel and comfort. You can easily make your selection using the “Vondom cover” feature.

Of course, we can offer you all covers from the Vondom collection on request. These covers, which are not available in our online store, are particularly suitable for use in regions with a predominantly sunny and dry climate or for indoor use. They impress with their particularly luxurious feel, but usually require more maintenance if soiled.

Resistant to temperatures (-60°C to +80°C)

Shock and wear resistant. 100% reusable

Available accessories: SELF irrigation system, with watering of plants for up to 3 months

Product description

The STONE outdoor furniture collection, designed by Stefano Giovannoni and Elisa Gargan, is one of VONDOM's most iconic lines — continuing its nature-inspired evolution in 2025.

With its smooth, rounded forms, the design recalls stones shaped by wind, water, and time — natural sculptures radiating serenity, harmony, and timeless beauty. Each piece blends seamlessly into any setting — whether garden, terrace, or modern interior.

The new planters captivate with their generous proportions and flowing silhouettes, bringing life and individuality to spaces. The collection is complemented by lightweight stools that offer versatile seating, indoors or out. The low table combines practicality with natural elegance — ideal as the centrepiece of relaxed gatherings.

Crafted from rotational-moulded polyethylene, every piece is weather-resistant, UV-stable, and extremely durable. A colour palette inspired by the Mediterranean landscape ensures harmonious integration into any environment.

STONE is more than furniture — it's a design statement that redefines the relationship between nature and form. An invitation to live with elegance, ease, and inner calm.

about Vondom

Vondom stands for a modern lifestyle. Vondom indoor & outdoor furniture is designed with passion for people who appreciate innovation and quality - people like you who love trends and demand the best.

Focus on design

Design is the key to our success. With each new collection, we create spaces full of glamor and uniqueness. Vondom furniture brings life and elegance to every room, so you can enjoy life to the full.

Global designers

Vondom collections are created in collaboration with international designers such as Fabio Novembre, Karim Rashid and many more. Their passion for modern forms and culture makes every piece of furniture an exclusive work of art.

Sustainability & Innovation

Sustainability is a core value at Vondom. Vondom is continuously researching new technologies and materials to protect our environment. Vondom shares this knowledge in workshops, exhibitions and events worldwide.

Global success

Vondom is present in over 120 countries, with flagship stores and showrooms around the world, including Valencia, Miami, Los Angeles

and Shanghai.

VONDOM planters

Material properties:

- Material: LLDPE resin, linear low density polyethylene. UL 94 HB
- Manufacturing process: Rotational molding - rotational molding process
- UV-resistant, factor: UV8, corresponding to 8,000 hours of Florida sunshine
- Extremely temperature resistant (-60 to -80 degrees Celsius)
- Impact resistant
- Lightweight
- 100 % recyclable

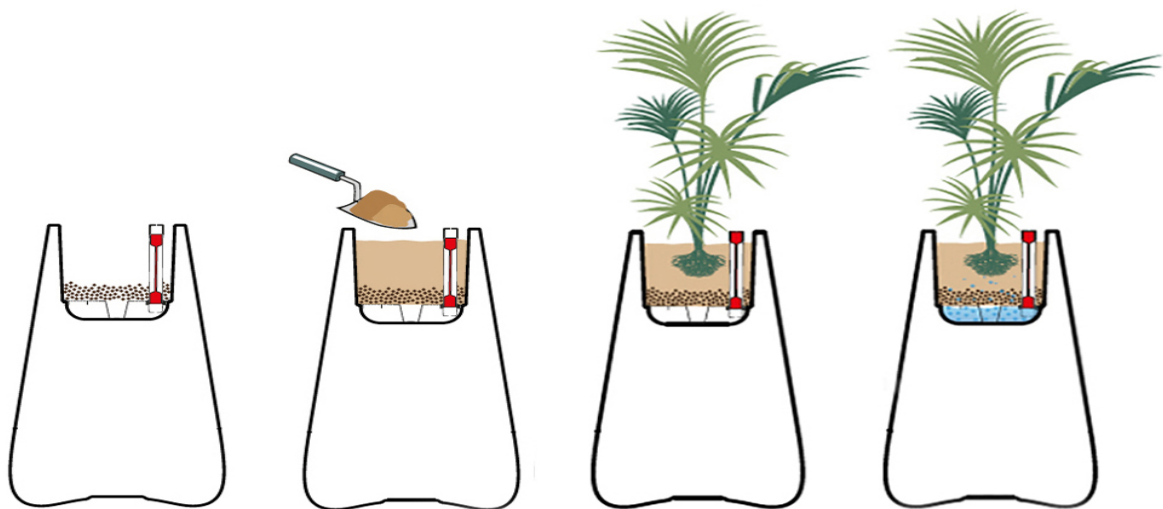

Watering system & integrated wheels:

Planters with a self-watering system are usually supplied with integrated wheels up to a size of 60cm. The integrated wheels make it easier to move the planter. The watering system ensures perfect care for your plants. The watering system is designed for indoor use only and is not suitable for outdoor use.

Indoor or outdoor use?

Illuminated planters have an integrated and lockable water drain. This means they can be used both indoors and outdoors. Planters without lighting do not have integrated water drainage. When used outdoors, several holes must be drilled with a drill both in the base of the planting area and in the subsoil on which the planter stands to prevent waterlogging.
