**In our online store, we offer a selection of covers that are characterized by their ease of care and suitability for outdoor use. These covers are chosen 90% of the time because they offer an ideal combination of functionality, feel and comfort. You can easily make your selection using the “Vondom cover” feature.**

Of course, we can offer you all covers from the Vondom collection on request. These covers, which are not available in our online store, are particularly suitable for use in regions with a predominantly sunny and dry climate or for indoor use. They impress with their particularly luxurious feel, but usually require more maintenance if soiled.

## Product description

---

The VASES collection consists of flower pots, furniture and lamps designed by Valencian designer JM Ferrero. His shapes were inspired by diamond cutting, resulting in pieces with clean forms and great style that create a great visual impact. These are pieces that can be used in large spaces and become a distinguishing feature for creating different environments. The footrest and base of the VASES bar stool are made of stainless steel. The seat, made of injection-molded plastic, has the original shapes of the collection, inspired by the shape of diamonds. The bar table has a round steel base and a central support made of polyethylene. The table top is made of HPL and is available in a wide range of colors for indoor and outdoor use.
