Design: Javier Mariscal

Product description

MORA is an exclusive lighting object designed by Javier Mariscal exclusively for the Spanish designer label VONDOM. MORA is inspired by a series of traditional stamped metal lamps. Design, functionality and perfect harmony with its surroundings are the outstanding features of this collection. The outer form has developed into a compact unit that follows an exceptionally clear geometry. The texture of the surface creates an attractive contrast with a bas-relief based on a design by Javier Mariscal. The interplay of the different shapes results in a balanced, calm light that has its own unique character.

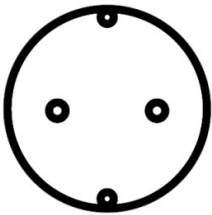

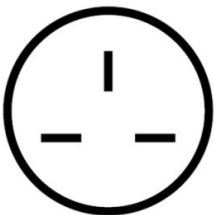

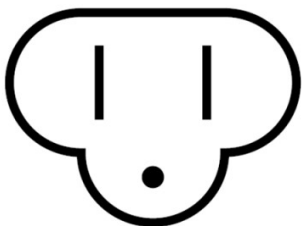

The functional details include a handle that emerges organically from the shape, allowing the lamp to be easily transported and hung in its respective place without much effort. MORA can even be used in extreme weather conditions thanks to its IP65 water protection rating. MORA is manufactured using a sophisticated technical rotational molding process from recyclable polyethylene resin, which makes it possible to produce exclusive objects with an exceptional design.
