Design: Marcel Wanders

Product description

Transform outdoor spaces into a true oasis, with the unique purpose of bringing people together and celebrate life "- Marcel Wanders.

First and foremost, the Suave collection combines the boundaries between indoor and outdoor furniture, achieving a higher level of softness, comfort and relaxation.

With the Suave collection, VONDOM introduces a new, incredibly resistant production method - injected polyurethane - and challenges a decade of production methods that put the company on the roadmap of international design furniture.

The collection includes a modular sofa, poufs in five different sizes and stylish cachepots available in three different sizes. Overall, new textures and delicate fabrics reflect the sensuality, warmth and poetry of Marcel Wanders. "We chose calm, sensual and soothing colors to create an inviting, iconic environment that becomes a place to be," says Gabriele Chiave, Creative Director at Marcel Wanders.

Treat yourself to SUAVE as outdoor furniture and bring the comfort and warmth of the indoors to your second living room, the outdoors.

Watering system & integrated wheels:
Planters with a self-watering system are usually supplied with integrated wheels up to a size of 60cm. The integrated wheels make it easier to move the planter. The watering system ensures perfect care for your plants. The watering system is designed for indoor use only and is not suitable for outdoor use.

Indoor or outdoor use?
Illuminated planters have an integrated and lockable water drain. This means they can be used both indoors and outdoors. Planters without lighting do not have integrated water drainage. When used outdoors, several holes must be drilled with a drill both in the base of the planting area and in the subsoil on which the planter stands to prevent waterlogging.
