Product description

With Pillow, Stefano Giovannoni, one of the world's most renowned designers, has found an amusing expression and designed an ingenious outdoor furniture collection that is reminiscent of a chill-out area created with cushions. Mediterranean and warm design, universal like all the creations of the master Giovannoni, which invites you to relax and enjoy life. Our cushion collection is complemented by various pieces: a lounge chair, a coffee table, a stool, a planter and a sun lounger. Like all Vondom products, it is also suitable for the most extreme climatic conditions for outdoor use, as it is made of the highest quality PE using the rotational molding process.

Indoor or outdoor use?

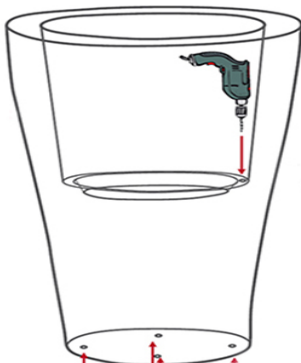

Illuminated planters have an integrated and lockable water drain. This means they can be used both indoors and outdoors. Planters without lighting do not have integrated water drainage. When used outdoors, several holes must be drilled with a drill both in the base of the planting area and in the subsoil on which the planter stands to prevent waterlogging.
