Fabrice Berrux

Product description

Iris is like an inner sun that creates a special atmosphere in any room. Its light shines with impressive intensity, yet remains soft and pleasantly diffuse, similar to the glow of a distant star. The lampshade of the Iris wall light is covered with an elegant textile band, which not only creates an aesthetically pleasing look, but also harmoniously supports the diffusion of light.

In recent years, the Iris luminaire series has become firmly established thanks to continuous further development and creative design. Various versions have been created that offer the right lighting solution for every situation. These include not only the versatile wall lights, but also stylish floor, pendant and table lamps. This variety makes it possible to use the Iris range to create a consistent and harmonious lighting design in a wide range of living and working areas.

about Dix heures Dix

Behind the name Dix heures Dix hide the two designers Catherine Grandidierand Fabrice Berrux. The Dix heures Dix manufactory clearly reflects this dichotomy. Unusual color combinations and the use of unusual materials are the hallmark of Catherine Grandidier's lamps. Following the success of textile collections such as La Colonne, dix heures dix has deliberately chosen to use modern, innovative and high-quality materials (Tyvek®, Dibond®, Corian®, etc.) for its latest creations. By mixing architectural, artistic, plant or fashion inspirations, the two designers (Fabrice Berrux and Ludovic Roth) strive to invent a narrative light where each product tells its own story.

The balance between the rigorous approach of industrial design and the wealth of artisanal know-how allows Dix heures Dix, to produce innovative and high quality lighting solutions.
