**In our online store, we offer a selection of covers that are characterized by their ease of care and suitability for outdoor use. These covers are chosen 90% of the time because they offer an ideal combination of functionality, feel and comfort. You can easily make your selection using the “Vondom cover” feature.**

Of course, we can offer you all covers from the Vondom collection on request. These covers, which are not available in our online store, are particularly suitable for use in regions with a predominantly sunny and dry climate or for indoor use. They impress with their particularly luxurious feel, but usually require more maintenance if soiled.

### Product description

The Vineyard Collection by Ramon Esteve is an outdoor furniture collection made of aluminum and wood with a rustic and warm style. Designed by Ramon Esteve for Vondom, the Vineyard Collection is inspired by his own country home. Designed to match the house, the pieces maintain the style of wooden boards with frames in powder-coated aluminum combined with ergonomic upholstery. "Each piece of the outdoor wooden furniture collection has large and comfortable shapes with casters that provide mobility and create a versatile and easily combinable line" The Vineyard Daybed Collection was born from the idea of a sanctuary. Its gable roof evokes traditional architecture; This piece is composed of an aluminum structure and a double reclining mattress that ensures a comfortable and versatile daybed. Its clean and simple lines and pyramid shape make it the ideal place to rest, entertain, meditate, sleep or simply relax. Available in two finishes: Fabric and Woven. A soft blend of materials inspired by the Mediterranean lifestyle and modern architecture.

### about Vondom

# Product information

**Watering system & integrated wheels:**
Planters with a self-watering system are usually supplied with integrated wheels up to a size of 60cm. The integrated wheels make it easier to move the planter. The watering system ensures perfect care for your plants. The watering system is designed for indoor use only and is not suitable for outdoor use.

**Indoor or outdoor use?**
Illuminated planters have an integrated and lockable water drain. This means they can be used both indoors and outdoors. Planters without lighting do not have integrated water drainage. When used outdoors, several holes must be drilled with a drill both in the base of the planting area and in the subsoil on which the planter stands to prevent waterlogging.
