Product description

From now on, cushions and pillows are where they are needed: very close to the seating area. The cushion chest FORTE is an elegant accommodation for all cushions and at the same time a functional sideboard. The body is made of weather-resistant wood in an elaborate slatted look. The ingenious design provides ventilation for the stored cushions. The lid is made of HPL plastic in anthracite gray. Gas pressure springs facilitate opening and prevent unintentional overturning of the lid. In the cushion chest FORTE all cushions and pillows find the safest place in the garden. Many special sizes available on request.

about Conmoto

Conmoto design furniture

In reference to a measure of time used by composers, "conmoto" describes the tempo of a musical movement and means "in motion". It transports the claim to the dynamics and development of the company, which is aptly reflected in the company claim Soundful Living.

Johannes Wagner founded conmoto in 1997. His first product: stainless steel fireplace cutlery. His goal was to offer cutlery that was both functional and beautiful.

The assortment and the field of activity of conmoto has expanded considerably in the last 20 years. Not only has conmoto expanded its collaboration with renowned designers and produces the highest-quality designer furniture for indoor and outdoor use, for several years the company has also been active in the project sector, developing holistic room concepts for major clients ranging from The Ritz Carlton to Rolls Royce and Borussia Mönchengladbach. Since 2019, the company owns its own manufactory near Münster in which a large proportion of its own products are manufactured.

Johannes Wagner - founder and managing director of conmoto - has always remained true to his goal and philosophy of combining functionality with beauty.

Product information

Conmoto stands for timeless designs and the highest quality - from the materials used to the workmanship.
