Product description

It all began with a drawing, a continuous line that emerged from pure inertia. This line became a fine, light and luminous volute, which I hung in the room. This is how ZIGOUZI was born. This pendant light is available in two sizes and its shape is reminiscent of the geometry of a four-leaf clover, which naturally brings good luck and spreads a beautiful light.

The suspensions are made of black or gold anodized aluminium and a white canopy. A transparent power cable ensures an unobtrusive appearance. The ZIGOUZI pendant light is an LED light, ideal for lighting above a dining table or in the living room. With a 5 meter long transparent cable and a white rosette, it is ideal for high rooms such as cathedrals.

Place the ZIGOUZI in the living room or dining room to give the room a modern and designer touch. The pendant light is available in two sizes: 150 cm and 180 cm in length.
