Delivery time: 6 - 8 weeks

Product information

Dimensions / Technical data:

Approx. dimensions: diameter Ø 56cm, height 61cm

Structure - solid Asian TEAK

Table top - porcelain stoneware or glazed lava stone of your choice

Further features:
Suitable for indoor and outdoor use
Very suitable for professional use
Resistant
100% reusable

Available accessories: Impregnated protective cover, beige color, water, oil and dirt repellent

Design by Atmosphera Creative Lab

Product description

ATMOSPHERA LODGE side table

The Lodge tables made of solid teak combine design and functionality. The robust structure emphasizes the natural beauty of the wood, while the table top, available in stoneware or glazed lava stone, adds an elegant and durable accent that is perfect for any room.

Structure: natural Indonesian teak wood

Atmosphera uses natural Indonesian teak that has been treated with oil for outdoor use. Over time, the honey color of the teak becomes silvery as the natural outdoor weathering causes an oxidation process of the outermost layer of the exposed surface.

To restore the color to its original honey hue, simply clean the surface with water and neutral soap and remove impurities with a hard bristle brush. It is also recommended to use teak oils to restore the natural softness and hydration of the wood. See maintenance kit.

Product information

Table top: FINE STONEWARE

Porcelain stoneware is Atmosphera's new elegant finish for the Zeta, Lodge and Frisbee collections. By compacting pure materials such as clay and minerals at high temperatures, without the addition of synthetic resins or chemical substances, a resistant, non-porous material is created. The stone surface feels natural and supple and gives the collection grandeur and character. The natural fossil stone Mactan Stone has a timeless, elegant presence.

or GLOSSY EMAIL SURFACE - LAVASTEIN

An exclusive and noble material with a shiny enameled surface that highlights the colors and nuances.
The manufacturing process of the slabs is the result of craftsmanship and can lead to nuances and color differences between products, making them unique. This material is made from natural lava stone that has undergone a ceramization process and is then coated with a glossy enamel layer. This combination provides a durable, easy-to-clean and aesthetically pleasing surface. The lava stone gives a natural look, while the glossy enamel adds a touch of elegance and extra protection against stains and wear.

about Atmosphera

ATMOSPHERA is an outdoor design brand and has been a reference point for the international market for over 20 years, dictating style and refinement. It continually searches for innovative solutions, exploring multiple situations, complex markets and different cultures: from the home environment to hospitality spaces, from the world of wellness to the care of public spaces in a professional environment.

Living rooms, contemplative places, dining rooms and workplaces, commercial and public spaces, up to the most intimate corners of houses and their alcoves: a roundup of scenes and atmospheres, rather than objects. Scenes of stories where the protagonists have left traces of their presence, but above all the staging of what they have accomplished in that environment.
From resting under the shade of a tree to concentrated study for hours, from contemplation to refreshment, from solitude to sharing in company.
