Product description

10 heures 10 - Iris Mirror - the shining sun for your interior

Product information

The **Iris Mirror wall and ceiling light** combines this poetic radiance with modern technology: a central **mirror disc** subtly reflects the light, while the **integrated, dimmable LED technology (TRIAC)** emits warm white light (2700 K). **DALI or CASAMBI controls** are optionally available.

Made of **white lacquered and mirror-polished steel**, the series stands for quality, durability and timeless design. In recent years, the **Iris collection** has continued to evolve - with pendant, floor and table lamps that together enable a consistent, stylish lighting design.
