Very suitable for professional use in restaurants and offices

Resistant to temperatures (-35°C to +80°C)

Shock and wear resistant. 100% reusable

Available accessories: 2 pieces of floor fixing plates in stainless steel Aisi 316 as anti-theft protection

Product description

Designed by Joan Gaspar for Serralunga, LLUNA illuminated pots and planters combine in a single evocative element a pot and a lamp in an elegant style.

LLUNA is perfect for separating outdoor areas and allows a visual connection between them. For terraces, outdoor areas, public spaces or next to a pool.

Marco Serralunga explains the project: "Our project of planters for the garden continues. My company was the first to develop this innovative concept of use for a normal planter with this added value. In designing LLUNA, the basic idea was to create a vase-like light that takes into account both the space and the ambience. I am a firm believer in the practicality of plastic, and together with the functional aspect of lighting, this makes this product unique. In the late evening hours, you can relax and enjoy an intimate atmosphere created by this complementary piece of outdoor furniture.

Serralunga Clean Fighter

Product information

SERRALUNGA presents CLEAN FIGHTER, a new innovative composite for fast and efficient cleaning.

As part of Serralunga's ongoing research and innovation activities, a new compound has been developed: Clean Fighter.

Clean Fighter is an innovative composite that allows fast and efficient cleaning of all Serralunga furniture, flower pots and furnishings in standard colors. Less time spent cleaning is the result. CLEAN FIGHTER is not needed for products in matt or glossy finish.

Clean Fighter is absolutely versatile. Particular feature is the ability of the material to adapt to different shapes.

about Serralunga

The first in Europe to develop rotational molding technology, the first to introduce the design jug and conceive the oversized jug. The first to design the illuminated jug, the first to exhibit an industrial vase in a museum and the first to develop new painting technologies with patterns.

Those who choose Serralunga can recognize and appreciate originality.

A FAMILY BUSINESS WITH HEART

THE HERITAGE

Serralunga was founded in Biella in 1825 and is the name of the family that has been the creative and entrepreneurial heart of the company for six generations, producing modern outdoor furniture.

The company was founded as a tannery and then moved to leather processing for industrial purposes. The real revolution came with the processing of plastic and then with the rotational molding technology imported from the United States, which has produced countless Italian design objects such as outdoor lighting and contemporary furniture, all made in Italy.

MADE IN ITALY

Serralunga continues the excellence that has long been associated with the "Made in Italy" label, while offering new ways of living that allow us to relax and unwind with furnishings that enrich our lives.

CULTURAL INNOVATION

Serralunga is known for pushing the boundaries of materials, technologies and aesthetics with its sense of innovation and craftsmanship to create groundbreaking products that both inspire and delight.
