Product description

The **ZEITRAUM 1.3 stool**, designed by Kihyun Kim, combines a delicate, minimalist form with the natural quality of solid wood. Its defining feature is the finely contoured seat, which appears almost to float. The subtle “pad” look gives the seat visual softness and shapes the light, elegant appearance of this designer stool.

Product information

Crafted from solid wood, the ZEITRAUM 1.3 stool is available in oak, colour-stained oak or American walnut. Thanks to its compact, space-saving form and sturdy construction, this wooden stool is ideal for modern living and dining areas as well as restaurants, bistros, bars and sophisticated hospitality projects.

Design: Kihyun Kim, 2012

About Zeitraum

Home:

ZEITRAUM is at home in the Bavarian foothills of the Alps. It is not so much the local roots that connect ZEITRAUM with our homeland, but rather the knowledge that life in the alpine region has traditionally been characterized by the conscious use of limited resources. The direct dependence on nature shapes ZEITRAUM's sense of responsibility and long-term thinking. The roots of the values lie in the respectful treatment of the natural habitat, which should be preserved for future generations in its diversity as a basis for life and a source of inspiration.

Longevity:

ZEITRAUM's designs are a tribute to the pure, the purity of the material and the durability of the form. Out of conviction, ZEITRAUM is committed to sustainable action in its entirety, and is committed to the principle that products are repairable, because this is the only way to ensure their longevity over generations. Repairing and maintaining deepens the relationship between man and product. ZEITRAUM has been pursuing the idea of combining design and ecology since its founding in 1990. ZEITRAUM processes only hardwoods from sustainable forestry and does not use any chemical treatment of the wood. The surfaces, left open-pored with biological oils, allow the furniture to breathe and retain its naturalness.
