In our online store, we offer a selection of covers that are characterized by their ease of care and suitability for outdoor use. These covers are chosen 90% of the time because they offer an ideal combination of functionality, feel and comfort. You can easily make your selection using the “Vondom cover” feature.

Of course, we can offer you all covers from the Vondom collection on request. These covers, which are not available in our online store, are particularly suitable for use in regions with a predominantly sunny and dry climate or for indoor use. They impress with their particularly luxurious feel, but usually require more maintenance if soiled.

Product description

Product information

The Vondom collection is the pinnacle of high quality plant containers. The planters are designed from sophisticated rotational molding resin that can withstand any hardness test, both indoors and outdoors. The collection has a very wide range of planters in numerous sizes. The planters are available in matt through-dyed color, glossy lacquered (for indoor use) or with white LED or LED RGB lighting. On request, the planters can be equipped with an integrated watering system (only recommended for indoor areas and included as standard with lacquered planters), which guarantees the best care for the plants while you are away. Timeless and minimalist designs that allow you to create unique and original atmospheres for homes, restaurants and any space

about Vondom

Watering system & integrated wheels:

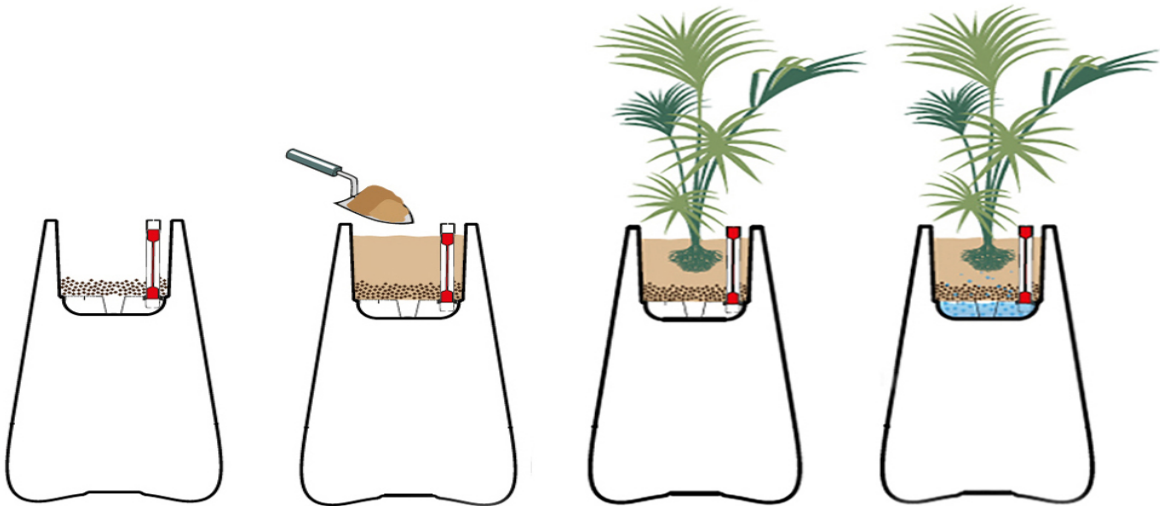

Planters with a self-watering system are usually supplied with integrated wheels up to a size of 60cm. The integrated wheels make it easier to move the planter. The watering system ensures perfect care for your plants. The watering system is designed for indoor use only and is not suitable for outdoor use.

Indoor or outdoor use?

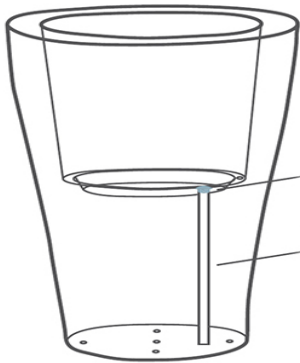

Illuminated planters have an integrated and lockable water drain. This means they can be used both indoors and outdoors. Planters

Product information

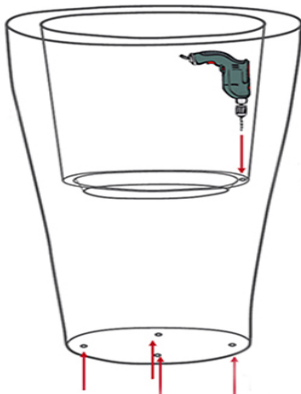

without lighting do not have integrated water drainage. When used outdoors, several holes must be drilled with a drill both in the base of the planting area and in the subsoil on which the planter stands to prevent waterlogging.
