Product description

Planter, seating and design object HOLLY ALL by Serralunga Living Different for INDOOR + OUTDOOR:

Serralunga and Philippe Starck have created an extraordinary, downright spectacular object with this 200 cm tall sculpture that functions as both a vase and a seat. With this very special piece, Starck offers us the unique opportunity to snuggle up in a tree cave and make ourselves comfortable in the shade of its leaves, even if the location (terrace or indoor) does not allow to plant a real tree... Let us take you to a romantic world... Next to "Holly All" you will inevitably have the feeling of having become a little thumb. If you give in to the temptation to touch it, you will find that "Holly All" is as smooth as a stone polished by millennia of forces - and that it sounds just like an old hollow tree trunk....

Product information

With his creations, Starck tries to get as close as possible to the simple and basic forms of nature. Using modern materials and technologies (polyethylene body, stainless steel base), he evokes the world of plants. Like a window, the opening gives a great lightness to the whole sculpture. With its curved lines, the shape of "Holly All" transforms and reinvents itself every time, depending on the direction from which it is viewed.

"Holly All" brings a poetic-romantic touch to interiors as well as exteriors.

Serralunga Clean Fighter

SERRALUNGA presents CLEAN FIGHTER, a new innovative composite for fast and efficient cleaning.

As part of Serralunga's ongoing research and innovation activities, a new compound has been developed: Clean Fighter.

Clean Fighter is an innovative composite that allows fast and efficient cleaning of all Serralunga furniture, flower pots and furnishings in standard colors. Less time spent cleaning is the result. CLEAN FIGHTER is not needed for products in matt or glossy finish.

Clean Fighter is absolutely versatile. Particular feature is the ability of the material to adapt to different shapes.

about Serralunga

The first in Europe to develop rotational molding technology, the first to introduce the design jug and conceive the oversized jug. The first to design the illuminated jug, the first to exhibit an industrial vase in a museum and the first to develop new painting technologies with patterns.

Those who choose Serralunga can recognize and appreciate originality.

A FAMILY BUSINESS WITH HEART

THE HERITAGE

Serralunga was founded in Biella in 1825 and is the name of the family that has been the creative and entrepreneurial heart of the company for six generations, producing modern outdoor furniture.

The company was founded as a tannery and then moved to leather processing for industrial purposes. The real revolution came with the processing of plastic and then with the rotational molding technology imported from the United States, which has produced countless Italian design objects such as outdoor lighting and contemporary furniture, all made in Italy.

MADE IN ITALY

Serralunga continues the excellence that has long been associated with the "Made in Italy" label, while offering new ways of living that allow us to relax and unwind with furnishings that enrich our lives.

CULTURAL INNOVATION

Serralunga is known for pushing the boundaries of materials, technologies and aesthetics with its sense of innovation and craftsmanship to create groundbreaking products that both inspire and delight.
