about Serralunga

The first in Europe to develop rotational molding technology, the first to introduce the design jug and conceive the oversized jug. The first to design the illuminated jug, the first to exhibit an industrial vase in a museum and the first to develop new painting technologies with patterns.

Those who choose Serralunga can recognize and appreciate originality.

A FAMILY BUSINESS WITH HEART

THE HERITAGE

Serralunga was founded in Biella in 1825 and is the name of the family that has been the creative and entrepreneurial heart of the company for six generations, producing modern outdoor furniture.

The company was founded as a tannery and then moved to leather processing for industrial purposes. The real revolution came with the processing of plastic and then with the rotational molding technology imported from the United States, which has produced countless Italian design objects such as outdoor lighting and contemporary furniture, all made in Italy.

MADE IN ITALY

Serralunga continues the excellence that has long been associated with the "Made in Italy" label, while offering new ways of living that allow us to relax and unwind with furnishings that enrich our lives.

CULTURAL INNOVATION

Serralunga is known for pushing the boundaries of materials, technologies and aesthetics with its sense of innovation and craftsmanship to create groundbreaking products that both inspire and delight.
