Product description

Banquété INDOOR + OUTDOOR

Minimalism characterizes the BANQUété table based on a design by Calvi & Brambilla for the Italian brand Serralunga. The special motif of the frame was rotationally molded from polyethylene in different colors, the special geometric shape plays with symmetries and asymmetries. The horizontal connecting element between the two sides of the table is made of aluminum.

Despite its austere form, this table has a strong personality and can be used in a variety of spaces, from very small rooms to large areas, and is suitable for home and work, indoors or outdoors.

The table surface is made of a new wood-plastic material for outdoor use. Various options are available for the interchangeable tray: Serralunga offers materials with outstanding visual properties and excellent resistance, particularly to abrasion, knocks, scratches, stains and light-induced discoloration.

Also available in combination with an aluminum shelf.

about Serralunga

The first in Europe to develop rotational molding technology, the first to introduce the design jug and conceive the oversized jug. The first to design the illuminated jug, the first to exhibit an industrial vase in a museum and the first to develop new painting technologies with patterns.

Those who choose Serralunga can recognize and appreciate originality.

THE HERITAGE

The company was founded as a tannery and then moved to leather processing for industrial purposes.
