**Product description**

Romeo INDOOR + OUTDOOR

The bench is one of the most popular pieces of garden furniture. It can be placed alone on a patio or in the shade of a tree, or in groups or in a row. The wide legs are firm and stable on any surface. The sloping seat prevents water from collecting. The backrest with struts is transparent and breathable. The curved shape makes it particularly comfortable.

The special innovation lies in the manufacturing technique (rotational molding), with which the entire bench is made from a single cast.

**Serralunga Clean Fighter**

SERRALUNGA presents CLEAN FIGHTER, a new innovative composite for fast and efficient cleaning.

As part of Serralunga's ongoing research and innovation activities, a new compound has been developed: Clean Fighter.

Clean Fighter is an innovative composite that allows fast and efficient cleaning of all Serralunga furniture, flower pots and furnishings in standard colors. Less time spent cleaning is the result. CLEAN FIGHTER is not needed for products in matt or glossy finish.

Clean Fighter is absolutely versatile. Particular feature is the ability of the material to adapt to different shapes.
