Shock and wear resistant. 100% reusable

Available accessories: 4 Aisi 316 stainless steel floor mounting plates as anti-theft protection

Product description

Romeo INDOOR + OUTDOOR

The bench is one of the most popular pieces of garden furniture. It can be placed alone on a patio or in the shade of a tree, or in groups or in a row. The wide legs are firm and stable on any surface. The sloping seat prevents water from collecting. The backrest with struts is transparent and breathable. The curved shape makes it particularly comfortable.

The special innovation lies in the manufacturing technique (rotational molding), with which the entire bench is made from a single cast.

Serralunga Clean Fighter

SERRALUNGA presents CLEAN FIGHTER, a new innovative composite for fast and efficient cleaning.

As part of Serralunga's ongoing research and innovation activities, a new compound has been developed: Clean Fighter.

Clean Fighter is an innovative composite that allows fast and efficient cleaning of all Serralunga furniture, flower pots and furnishings in standard colors. Less time spent cleaning is the result. CLEAN FIGHTER is not needed for products in matt or glossy finish.

Clean Fighter is absolutely versatile. Particular feature is the ability of the material to adapt to different shapes.

about Serralunga

The first in Europe to develop rotational molding technology, the first to introduce the design jug and conceive the oversized jug. The first to design the illuminated jug, the first to exhibit an industrial vase in a museum and the first to develop new painting technologies with patterns.

Product information

Those who choose Serralunga can recognize and appreciate originality.

A FAMILY BUSINESS WITH HEART

THE HERITAGE

Serralunga was founded in Biella in 1825 and is the name of the family that has been the creative and entrepreneurial heart of the company for six generations, producing modern outdoor furniture.

The company was founded as a tannery and then moved to leather processing for industrial purposes. The real revolution came with the processing of plastic and then with the rotational molding technology imported from the United States, which has produced countless Italian design objects such as outdoor lighting and contemporary furniture, all made in Italy.

MADE IN ITALY

Serralunga continues the excellence that has long been associated with the "Made in Italy" label, while offering new ways of living that allow us to relax and unwind with furnishings that enrich our lives.

CULTURAL INNOVATION

Serralunga is known for pushing the boundaries of materials, technologies and aesthetics with its sense of innovation and craftsmanship to create groundbreaking products that both inspire and delight.
