## Dimensions / Technical Data:

Approx. dimensions: Ø 118.6cm (seating group assembled)

Seating group consisting of:

- 1 x table TEDDY, Ø 79,5cm, height 72,5cm, Poleasy
- 4 x chair RHONDA, width 83cm (1/4 round) depth 51cm, total height 72cm, seat height 43cm

Structure: Polyethylene POLEASY, weather resistant and unbreakable

Surface: free of micropores and therefore absolutely easy to clean (worldwide patented, new type of polyethylene POLEASY)

Available colors: white matt

Special feature:

- Very suitable for professional use
- UVI resistant
- Resistant to temperatures (-60°C to +80 °C)
- Shock and wear resistant. 100% reusable
- Excellent mechanical properties

Design: MoreDesign

## Product description

Community, the system of armchairs with a table that resembles a crown when closed and provides great comfort when open. The combination consists of armchair Rhonda with armrests and table Teddy. A combination for 4 people. The arm chair Rhonda has a recess for easier movement and a gutter for drainage of rainwater. The table Teddy is characterized by details such as a slight curvature of the plane for the elimination of water.

## MyYour - Material & Care

## **POLEASY:**

Design and technology are not the only factors that make the difference in Myyour products: also because, as far as the materials are concerned, this company, which is based in Padua, Italy, is able to fully express itself thanks to a new and special type of polyethylene called Poleasy. Poleasy was developed after long years of research. In fact our research was focused on finding a way to eliminate the microporous surfaces that are responsible for the formation of anti-aesthetic patinas or cracks over time. Poleasy, an exclusively international patent, has entirely solved this problem by ensuring compactness to the surfaces of Myyour's creations and a better performance in terms of durability, washability and color brightness.

## **ROTATIONAL:**

At Myyour, the rotational molding of polyethylene goes beyond the purely technical aspect. It becomes a process that is strongly connected to the best traditions of craftsmanship. It is here that man, hands and time encounter the ancient gestures and rhythms that enable them to act intelligently and in synergy with machines as to attain perfection. The skillful blend of powders, the rotation of the molds, which rotate for almost an hour to favor the creation of an appropriate thickness, the hot extraction process of the manufactured item and its dimensional stabilization, which is obtained through custom made templates, are all very slow and delicate phases of the process. These phases are scrupulously and skillfully managed to prevent errors from cropping up. The product is finished manually before finally being blazed to create a smooth and shiny creation.

## **COATING:**

This goal seemed almost impossible to attain a few years ago. Today, coating polyethylene has become a wonderful reality: dense and compact, smooth and almost metallic-like... it embellishes and greatly impacts Myyour products. This was made possible thanks to the scientific research, tests and experiments that brought to light the right formula. We have now obtained a primer that of plastic and to ensure a durable application on smooth surfaces and without ever having to drill a hole. After applying this unique background layer, each piece is carefully sanded by hand: three careful coatings are sprayed on the product and a trip to the oven does the rest. All of this contributes to the much desired and beautiful colors of Myyour, which are weather resistant and able to remain intact over a long, long period of time.

## **About My Your**

---

MY YOUR is a story, a family and an Italian design company.

MY YOUR has evolved over time, changing and improving its design and introducing technological innovations hand in hand with its brand identity. Today MY YOUR presents its new and consolidated identity as a publisher and manufacturer of furniture and accessories that help create spaces with a strong personality, without ever neglecting the elegance of form and qualitative excellence. MY YOUR is designed and produced entirely in Italy, both as a brand and as the aesthetic and functional language of the outdoor collections.
