Design: A-Cero

Product description

The Wing collection of outdoor furniture by A-cero for Vondom was born as a result of the folding of the projection of straight and curved lines mixed in a dynamic way. The extreme curves and angles that are a typical feature of architecture, recent advances have now extended to furniture design, relying on a free, delicate and organic line that creates movement and breaks away from any previous trace of over-rigidity. These are bold pieces that form a furniture set with enormous visual impact and impressive sculptural and dynamic significance.
