In our online store, we offer a selection of covers that are characterized by their ease of care and suitability for outdoor use. These covers are chosen 90% of the time because they offer an ideal combination of functionality, feel and comfort. You can easily make your selection using the “Vondom cover” feature.

Of course, we can offer you all covers from the Vondom collection on request. These covers, which are not available in our online store, are particularly suitable for use in regions with a predominantly sunny and dry climate or for indoor use. They impress with their particularly luxurious feel, but usually require more maintenance if soiled.

Design: Ramon Esteve

Product description

Vela collection designed by Ramon Esteve for Vondom. The aim of this extensive outdoor furniture and plant pot collection is to provide the comfort and quality of indoor furniture without losing their original features. Vela is a modular system with a geometric prismatic element, whose uniqueness is based on the balance of its proportions. The elements can be combined with each other to integrate into any space. Their flat volumes give the impression of floating a few centimeters above the floor, and when illuminated, they transform into light architectures. It is made by rotational molding of linear low density polyethylene. It is a 100% recyclable material that can withstand extreme climatic conditions from -60 °C to 80 °C, is UV resistant and gives the product lightness. Vondom offers this collection in frosted, lacquered or illuminated finish.

about Vondom
