Product description

Vondom is constantly innovating and developing new techniques to create new and cutting-edge products. The result of these efforts is brought to life in outdoor carpets made of recycled plastic. These carpets are suitable for outdoor use; The integrated UV treatment makes them water and temperature resistant, and also easy to clean and maintain. They are the perfect decorative addition; Adding a warm and cozy touch to any place you place them. Once again, the use of plastic fibers extracted from the oceans is part of the way to a more sustainable future. This time, Vonsom has used more than 130 plastic bottles for each square meter of carpet. This is the grain of sand to help the marine ecosystem and the environment
