Product description

The STONE outdoor furniture collection, designed by Stefano Giovannoni and Elisa Gargan, is one of VONDOM's most iconic lines — continuing its nature-inspired evolution in 2025.

With its smooth, rounded forms, the design recalls stones shaped by wind, water, and time — natural sculptures radiating serenity, harmony, and timeless beauty. Each piece blends seamlessly into any setting — whether garden, terrace, or modern interior.

The new planters captivate with their generous proportions and flowing silhouettes, bringing life and individuality to spaces. The collection is complemented by lightweight stools that offer versatile seating, indoors or out. The low table combines practicality with natural elegance — ideal as the centrepiece of relaxed gatherings.

Crafted from rotational-moulded polyethylene, every piece is weather-resistant, UV-stable, and extremely durable. A colour palette inspired by the Mediterranean landscape ensures harmonious integration into any environment.

STONE is more than furniture — it's a design statement that redefines the relationship between nature and form. An invitation to live with elegance, ease, and inner calm.

Indoor or outdoor use?

Illuminated planters have an integrated and lockable water drain. This means they can be used both indoors and outdoors. Planters without lighting do not have integrated water drainage. When used outdoors, several holes must be drilled with a drill both in the base of the planting area and in the subsoil on which the planter stands to prevent waterlogging.
