Product description

Gulliver

Big design by Davy Grosemans for Symo Parasols

During his many travels, Gulliver discovered strange and wonderful places where things seemed either too big or too small. This parasol he seems to have brought back from one of those places. It is nothing more or less than a larger than life umbrella. By using waterproof fabric, it can be used not only during the sunny days. For bars, cafes, restaurants and other locations, it creates an ideal meeting place for conversations and the smoking contemporaries.
