Product description

Showcase unit and lamp for house, showroom and public areas. The particular and sophisticated manufacturing process of the curved glass creates a unique lens effect, emphasized by the use of integrated light. A dedicated system allows the shelves to be fixed to the vertical column, placing them at the desired height and each shelf is provided with adjustable Led lighting. A powerful lamp with Led technology is placed at the top of the vertical column to light the space. The door, the back, the shelves and the top are in 6 mm thick transparent extralight glass, the column and the base cover are in anodized aluminium dark brown or inox. Available with or without lock.

About Glas Italia

Glas Italia is an expert in the art of glass forming and uses traditional, handcrafted methods. Each piece is made with the utmost respect for tradition by the Italian masters of glass art. Glas Italia always engages the most renowned designers to bring out the best in this noble and at the same time pure material. Absolute transparency and total clarity, surprising combinations of different genres and an astonishing translucency: these creations exude a feeling of luxury combined with a touch of modernity.

In cooperation with successful international designers such as Michele De Lucchi, Piero Lissoni, Jean-Marie Massaud and many others, fascinating effects, grandiose processing techniques, clear and opulent designs have been created. Let yourself be enchanted by the variety of colors of the glasses, fine engravings and facets.
