Lampshade optionally in the color:

Textile cover outside black / inside white

textile cover outside white / inside white

textile cover outside light grey / inside white

textile cover outside warm gray / inside white

Structure: iron matt black powder coated

Textile cable: Black

Special feature: Glare-free due to diffuser pane

Delivery: EXCLUSIVE illuminant

Design: EL Schmid 2008

Product description

The motif of the strictly constructed lamp series NOON is the geometric abstraction of branch formations of nature. Form and material are an interplay of contrasts: the lampshades made of textile give a soft light. The matte black or matte white powder-coated iron has a soft and warm effect. The value comes from the material and the precise craftsmanship in detail.

The NOON family is extended by the floor lamp READ NOON. It is suitable as a reading lamp on armchairs and sofas and spreads an atmospheric light.

In the production of the textile shades for the NOON lamp series, natural paper is used on the inside and a textile material on the outside, which consists of 75 percent viscose (cotton waste product) and 25 percent polyamide - a natural substitute for foil material. This combination of materials has a warm, homely character and consists of almost 90 percent natural materials.

About Zeitraum

Home:

ZEITRAUM is at home in the Bavarian foothills of the Alps. It is not so much the local roots that connect ZEITRAUM with our homeland, but rather the knowledge that life in the alpine region has traditionally been characterized by the conscious use of limited resources. The direct dependence on nature shapes ZEITRAUM's sense of responsibility and long-term thinking. The roots of the values lie in the respectful treatment of the natural habitat, which should be preserved for future generations in its diversity as a basis for life and a source of inspiration.

Longevity:

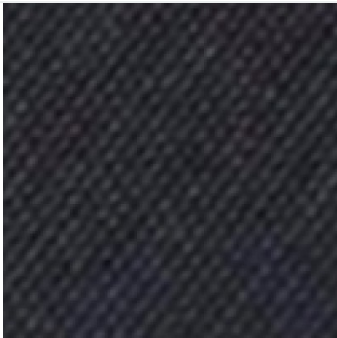

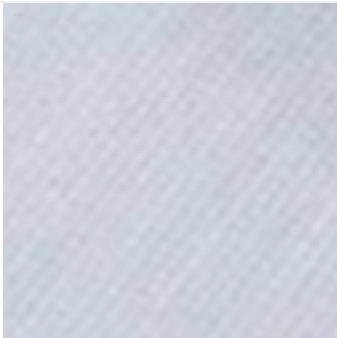

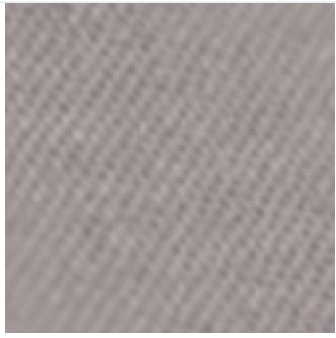

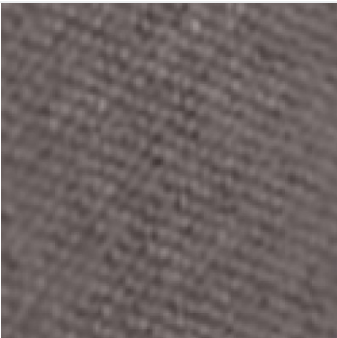

ZEITRAUM's designs are a tribute to the pure, the purity of the material and the durability of the form. Out of conviction, ZEITRAUM is committed to sustainable action in its entirety, and is committed to the principle that products are repairable, because this is the only way to ensure their longevity over generations. Repairing and maintaining deepens the relationship between man and product. ZEITRAUM has been pursuing the idea of combining design and ecology since its founding in 1990. ZEITRAUM processes only hardwoods from sustainable forestry and does not use any chemical treatment of the wood. The surfaces, left open-pored with
