Product description

Teresa Sapey surprises us again with her new creations, this time through ADAN and EVA, two pieces with a lot of personality that make them so different by the sex as by the shape.

ADAN, as a diamond with cutting, while EVA is smooth, sweet and delicate, of curves lines.

Both of them are the result of the balance between the past and the future. More than objects, they are multifunctional architecture pieces, since besides vases can be used as seats, flower pots, auxiliary tables...

They are lifestyle objects that mark the tendency integrating perfectly in all kinds of styles and their materials permit their extensive use in both outdoor and indoor.
