Product description

Marquis, designed by Estudi{H}ac for Vondom, is a planter collection born from the inspiration of diamond cutting. Its polygonal design is reminiscent of facets created by cutting. It also includes a design table lamp. The Marquis design combines geometric shapes with folding systems to create a restructured exterior of simple triangles. The clean and stylish shapes create a great visual impact. Round or oval and in two color combinations, they add great dynamism to a room. Marquis table lamp is characterized by the effect created by the light when it falls through these figures. It surprises with the play of shadows and light transmitted to the surfaces, showing a world of textures that brings us back to the pleated fabrics.
