Design: Kihyun Kim, 2012

Product description

The ensemble of the 1.3 collection consists of chair, stool and bar stool. The most striking feature of the petite, lightweight 1.3 CHAIR is the wafer-thin appearance of the seat and back thanks to its particularly fine contour line. The seat looks as if it is floating, and is given a visual softness by the "pad" look. Due to its space-saving shapes and stable construction, this ensemble is particularly suitable for big city ambience - small restaurants, bars and bistros. The 1.3 CHAIR was nominated for the Design Museum London's "Design of the year 2012" design award. (Kihyun Kim is a graduate of the Royal College of Art).

About Zeitraum

Home:

ZEITRAUM is at home in the Bavarian foothills of the Alps. It is not so much the local roots that connect ZEITRAUM with our homeland, but rather the knowledge that life in the alpine region has traditionally been characterized by the conscious use of limited resources. The direct dependence on nature shapes ZEITRAUM's sense of responsibility and long-term thinking. The roots of the values lie in the respectful treatment of the natural habitat, which should be preserved for future generations in its diversity as a basis for life and a source of inspiration.

Product information

Longevity:

ZEITRAUM's designs are a tribute to the pure, the purity of the material and the durability of the form. Out of conviction, ZEITRAUM is committed to sustainable action in its entirety, and is committed to the principle that products are repairable, because this is the only way to ensure their longevity over generations. Repairing and maintaining deepens the relationship between man and product. ZEITRAUM has been pursuing the idea of combining design and ecology since its founding in 1990. ZEITRAUM processes only hardwoods from sustainable forestry and does not use any chemical treatment of the wood. The surfaces, left open-pored with biological oils, allow the furniture to breathe and retain its naturalness.
