Wood finish optional:
Solid oak
American walnut solid

Product information

Structure: solid wood

Seat and back shell: molded wood veneer - wooden seat

Minimum order quantity: 2 chairs

Design: Formstelle

Product description

With ZENSO, the designer duo Formstelle has developed a chair family with a sculptural character. Actually, the chair family should be called "Enso". The round circles follow the motif of Ensō, a symbol of Japanese calligraphy: although Ensō is a symbol and not a letter, it is one of the most common drawings in Japanese calligraphy. It symbolizes enlightenment and elegance, the universe and emptiness, but also symbolizes the Japanese aesthetic itself. As an "expression of the moment."

The expressive wooden frame takes two floating circles, seat shell and backrest. The frame is made of solid wood, the seat and back shell of molded wood and optionally upholstered. In this case, the seat upholstery is always fully upholstered, the back shell with overlying cushion. ZENSO is available either with seat and back shell in wood, with upholstered seat and back shell, or with seat upholstery and back shell in wood.

About Zeitraum

Home:

ZEITRAUM is at home in the Bavarian foothills of the Alps. It is not so much the local roots that connect ZEITRAUM with our homeland, but rather the knowledge that life in the alpine region has traditionally been characterized by the conscious use of limited resources. The direct dependence on nature shapes ZEITRAUM's sense of responsibility and long-term thinking. The roots of the values lie in the respectful treatment of the natural habitat, which should be preserved for future generations in its diversity as a basis for life and a source of inspiration.

Longevity:

ZEITRAUM's designs are a tribute to the pure, the purity of the material and the durability of the form. Out of conviction, ZEITRAUM is committed to sustainable action in its entirety, and is committed to the principle that products are repairable, because this is the only way to ensure their longevity over generations. Repairing and maintaining deepens the relationship between man and product. ZEITRAUM has been pursuing the idea of combining design and ecology since its founding in 1990. ZEITRAUM processes only hardwoods from sustainable forestry and does not use any chemical treatment of the wood. The surfaces, left open-pored with biological oils, allow the furniture to breathe and retain its naturalness.
