2700 Kelvin warm white - 1100 lumen

3000 Kelvin bright warm white - 1200 lumen

4000 Kelvin neutral white - 1350 lumen

1800 - 3000 Kelvin dim2warm, Ra 97

Optional beam angle:

12° = spot

24° = medium

38° = flood

Material: powder-coated aluminum

Control optional:

Phase on & off dimmable (3-core power cable)

DALI dimmable (DALI = digital light control) 4- or 5-core power cable (control cable) required!

Casambi Bluetooth dimmable. Light control via app (3-wire power cable).

Casambi dim2warm Bluetooth dimmable. Light control via app (3-wire power cable).

dim2warm DALI dimmable, 4- or 5-core power cable (control cable) required!

Adapter for track: The products are suitable for use in the PRO-06 and PRO-R6 Powergear 3-phase tracks.

Special feature: spotlight can be rotated 350° and tilted 90

Product information

Design: Jan Dinnebier, Mawa

Available accessories:

Widening attachment: To be able to set the full range of beam angles with one and the same optic (12° to 60°) If required, ex-works installation recommended!

Shutter: Made of aluminum in the color of the spotlight (white or black) for lateral glare control

Honeycomb louvre: Provides targeted glare control for the spotlights in the Wittenberg 4.0 series

Sculpture lens: Its elliptical light distribution ensures uniform illumination.

Suction lifter: For changing the lens without tools (if the lens needs to be changed subsequently, e.g. from 12° to 24° or 38°)

Minimum order quantity: 2 spotlights

Product description

track spotlight wi4-str2

The compact version of the wittenberg 4.0 track spotlight offers more freedom of movement thanks to its special design and is reduced to the typical wittenberg 4.0 light head. This impresses with its large, well glare-free light emission surface and can be swiveled by 90° and rotated by 355°. Special optics with three different beam characteristics can be easily replaced using a suction lifter or silicone pad.

silicone pad. If required, a honeycomb louvre can be used for additional glare control.

Note: The products are suitable for use in the PRO-06 and PRO-R6 Powergear 3-phase tracks.

About Mawa Design

Mawa Design was founded in 1977 by Martin Wallroth. In the company, which was then located in Kreuzberg, he developed and produced objects for the living area. In the following years, the one-man business expanded and established itself as a professional company. During this time, Mawa Design designs often took a pioneering role for formative ideas in the field of product design. To this day, the unusual combination of design office and manufactory contributes significantly to the company's success.

The eighties made understanding and interest in design popular. Mawa Design therefore broke new ground. In cooperation with external designers, product ideas for everyday life could be designed and quickly implemented due to the flexible structure of the company. The product range finds its customers mainly in the upscale retail trade.

In addition to the standard program of the manufactory, special productions according to individual specifications can of course also be realized. For example, luminaires have been produced for the Federal Chancellery, the Ministry of Economics, the Corbusier House, the Maxim Gorki Theater in Berlin or for the Luther House in Wittenberg. Renowned companies such as BMW, Daimler Benz, Jil Sander, Hotel Bleibtreu, KaDeWe, Sony or The Conran Shop work with Mawa Design when it comes to first-class lighting. Mawa products, which are characterized by high-quality materials and excellent workmanship, have been included in important collections of museums around the world.

Green light for further growth. With its own design department, research and development, as well as its own lighting laboratory, the company is now one of the preferred partners of internationally active specialist planners. mawa design has advanced from being an insider tip to a leading brand in the contract sector, especially in museums, libraries, sacred buildings and monuments with minimalist

Product information

lighting tools. A new branding with a striking logo reflects the far-reaching importance of the company in the professional world. Here, too, the following applies to the design: less is more. And so in 2017, the brand name is also reduced to two syllables - mawa design becomes mawa. Only color and attitude remained unchanged green.
