Handling & Care

VONDOM covers are impregnated to resist water, oil and dirt, functioning to protect the furniture. They are not recommended as a permanent cover for cushions, as moisture may collect and lead to the formation of mold stains. Furniture and cushions should be thoroughly dry before using the covers. Please note that the covers are especially tailored to your furniture item and precise placement is required. In order to increase the circulation of air and avoid the formation of condensation, the covers are not made to floor length. Never pack or fold covers that have become wet; instead, let them dry in a well-ventilated place. Use a soft cloth and warm water to clean the covers, using a gentle upholstery cleaner if necessary. Rinse with clear water. Solvents are not suitable for cleaning the covers as these are aggressive to the surface and may cause damage and discoloration.
