Design: Sebastian David Büscher

Product description

The RIVA series is not for nothing one of the well-known classics of conmoto. Those who value details will also discover them in RIVA. High-quality processed edges, a continuous straightness, discreetly inserted screws and the brand label embossed with love, but simple - here nothing is left to chance.

The RIVA bench and table form a harmonious whole and offer enough space for up to 10 people. As a solitaire, the bench sets a modern accent. The benches can be slid under the table to save space. The group is available in widths of 180 and 220 cm. To match, we also offer a bench with backrest and stools.

about Conmoto

Conmoto design furniture

In reference to a measure of time used by composers, "conmoto" describes the tempo of a musical movement and means "in motion". It transports the claim to the dynamics and development of the company, which is aptly reflected in the company claim Soundful Living.

Johannes Wagner founded conmoto in 1997. His first product: stainless steel fireplace cutlery. His goal was to offer cutlery that was both functional and beautiful.

The assortment and the field of activity of conmoto has expanded considerably in the last 20 years. Not only has conmoto expanded its collaboration with renowned designers and produces the highest-quality designer furniture for indoor and outdoor use, for several years the company has also been active in the project sector, developing holistic room concepts for major clients ranging from The Ritz Carlton to Rolls Royce and Borussia Mönchengladbach. Since 2019, the company owns its own manufactory near Münster in which a large proportion of its own products are manufactured.

Product information

Johannes Wagner - founder and managing director of conmoto - has always remained true to his goal and philosophy of combining functionality with beauty.

Conmoto stands for timeless designs and the highest quality - from the materials used to the workmanship.
