Product description

The worldwide success of the RIVA program has prompted Conmoto to now also develop the HPL material, which is so outstanding in its properties, as office furniture. The scratch-resistant surface is perfect for a workplace. The desk is seizingly simple and stable, in the usual clear lines, optimally in the measure and also still extremely thought out. You simply lead the cables away downwards through the integrated cable channel. RIVA Office is available in white. Many special sizes are available on request. Please write us your desired dimensions to: info@home-light.eu

about Conmoto

Conmoto design furniture

In reference to a measure of time used by composers, "conmoto" describes the tempo of a musical movement and means "in motion". It transports the claim to the dynamics and development of the company, which is aptly reflected in the company claim Soundful Living.

Johannes Wagner founded conmoto in 1997. His first product: stainless steel fireplace cutlery. His goal was to offer cutlery that was both functional and beautiful.

The assortment and the field of activity of conmoto has expanded considerably in the last 20 years. Not only has conmoto expanded its collaboration with renowned designers and produces the highest-quality designer furniture for indoor and outdoor use, for several years the company has also been active in the project sector, developing holistic room concepts for major clients ranging from The Ritz Carlton to Rolls Royce and Borussia Mönchengladbach. Since 2019, the company owns its own manufactory near Münster in which a large proportion of its own products are manufactured.

Johannes Wagner - founder and managing director of conmoto - has always remained true to his goal and philosophy of combining functionality with beauty.

Conmoto stands for timeless designs and the highest quality - from the materials used to the workmanship.
