## Product description

---

The Landmark garden cabinet offers perfect storage space for the garden. With its generous dimensions of 120x78x190 cm, the Landmark offers enough space for all garden utensils and equipment. The shelves provide sufficient order. At the same time, the cabinet also ensures a tidy image in the garden on the outside. Due to its puristic design, the Landmark is visually an eye-catcher without being too obtrusive. The cabinet is made of robust and weatherproof material, so it is well protected even in rain, wind and sunlight. Landmark - Sophisticated storage space for the garden!

## about Conmoto

---

Conmoto design furniture

In reference to a measure of time used by composers, "conmoto" describes the tempo of a musical movement and means "in motion". It transports the claim to the dynamics and development of the company, which is aptly reflected in the company claim Soundful Living.

Johannes Wagner founded conmoto in 1997. His first product: stainless steel fireplace cutlery. His goal was to offer cutlery that was both functional and beautiful.

The assortment and the field of activity of conmoto has expanded considerably in the last 20 years. Not only has conmoto expanded its collaboration with renowned designers and produces the highest-quality designer furniture for indoor and outdoor use, for several years the company has also been active in the project sector, developing holistic room concepts for major clients ranging from The Ritz Carlton to Rolls Royce and Borussia Mönchengladbach. Since 2019, the company owns its own manufactory near Münster in which a large proportion of its own products are manufactured.
