Note: The trellis is only in connection with the planter. The scope of delivery includes the planter and the trellis.

Design: Carsten Gollnick

Product description

Puristic planters with trellis. In sunlight, the trellises cast a beautiful striped shade. Indoors and outdoors, an optimal privacy screen, even on small balconies and terraces. The different dimensions make an endless variety of designs in the row or across the corner possible. The trellis made of thermo-ash with its stainless steel feet is simply pushed under the planter and fastened at the top edge with two screws. For planting, a 4-hole bearing surface serves at a distance of 30 cm from the upper edge. The adjustable feet allow the compensation of uneven floors.

about Conmoto

Conmoto design furniture

In reference to a measure of time used by composers, "conmoto" describes the tempo of a musical movement and means "in motion". It transports the claim to the dynamics and development of the company, which is aptly reflected in the company claim Soundful Living.

Johannes Wagner founded conmoto in 1997. His first product: stainless steel fireplace cutlery. His goal was to offer cutlery that was both functional and beautiful.

The assortment and the field of activity of conmoto has expanded considerably in the last 20 years. Not only has conmoto expanded its collaboration with renowned designers and produces the highest-quality designer furniture for indoor and outdoor use, for several years the company has also been active in the project sector, developing holistic room concepts for major clients ranging from The Ritz Carlton to Rolls Royce and Borussia Mönchengladbach. Since 2019, the company owns its own manufactory near Münster in which a large proportion of its own products are manufactured.

Johannes Wagner - founder and managing director of conmoto - has always remained true to his goal and philosophy of combining functionality with beauty.

Product information

Conmoto stands for timeless designs and the highest quality - from the materials used to the workmanship.
