■ Delivery time: 4 - 7 weeks

Product information

Dimensions / Technical Data:

Optional dimensions approx:

2 canopies each Ø 2.50 meters

2 canopies each Ø 3.00 meters

2 canopies each Ø 3.50 meters

2 canopies each Ø 4.00 meters

Pole: central pole (high-power pole) made of aluminum, Ø 150x150mm, wall thickness 5mm, triple-welded

Clearance height: 225cm

Distance between the sunshades: 40 cm

Operation: Crank drive. 2 x self-stopping cable winch with removable crank (1 crank per sunshade, 4 mm stainless steel cable)

Special feature: High wind stability due to solid pole and crown made of high-quality aluminum

Pole / mast & fabric color: See color selection

Fabric design optional:

Acrylic awning fabric: 100% acrylic 285-300g/m², advertising print possible

Acrylic Lumera: 100% acrylic 290g/m², advertising print possible

Acrylic ProNature: 100% acrylic 285 - 300 g/m²; with air purification effect, advertising imprint possible

Tempoteststar FR: 100% polyester 300 g/m², fire protection certificate B1

Ferrari Precontraint 302: polyester fabric with PVC coating 480 g/m², fire protection certificate B1, advertising print possible

Further information on the fabric versions can be found in the "Fabric colors / versions" section

Included in the scope of delivery. PVC weather protection cover, light gray

Special feature: 5-year guarantee (in accordance with the CARAVITA guarantee conditions)

Ground Fixing AMALFI DUO 1 & 2

Please click on "**change**" for the "floor stand" feature and select the appropriate fastening.

Product information

BBK ground socket for Amalfi DUO 1:

For setting in concrete, 35 cm long. The sunshade is screwed on directly. Ground-level finish. For fully concreted surfaces.

Foundation required for BBK ground sleeve: 60 x 60 x 80 cm

BBL ground socket for Amalfi DUO 1:

61 cm long. The shade is screwed on directly. For paved floors or mixed floors with soil, sand or cavities.

Foundation required for BBL ground socket: 60 x 60 x 80 cm

Base plate BB for Amalfi DUO 1:

Powder-coated, 70 x 70 x 1 cm, steel plate with screw-on stand and holes for screwing to the foundation. Dead weight 39 kg:

Screw-on base (Krinner) for Amalfi DUO 1:

Length 130 cm, Ø 14 cm. Hot-dip galvanized metal tube with spiral thread for screwing into the ground. Extremely stable.

Ground socket AQ for Amalfi DUO 2:

Stainless steel ground socket 20 cm long for setting in concrete. Foundation 100 x 100 x 50 cm. Standard solution for concrete foundations.

Product information

Ground socket AL for Amalfi DUO 2:

Stainless steel ground socket 20 cm long for setting in concrete. Foundation 100 x 100 x 50 cm. For paved floors or mixed floors with soil, sand or cavities.

Slab stand BOSTON:

100 x 100 X 30 cm, galvanized steel, with levelling screws for concrete slabs 40x40x5 cm. With castors and cover on request.

Up to 2 canopies (each 3.00 × 3.00 m) → BOSTON base with 24 slabs possible

Over 6 meters total width → Ground sleeve AQ or AL required

Available fabric colors

Premium Acrylic Awning Fabric:

The high-quality acrylic awning fabric is made of 100% solution-dyed branded acrylic. Unlike conventional yarn dyeing, the color pigments are incorporated directly during the fiber production process. This ensures highly reliable protection against harmful UV radiation while maintaining long-lasting, vibrant, and lightfast colors.

The robust acrylic fabric also impresses with its high tear resistance. A special protective finish makes the material water- and dirt-repellent. This provides a durable and proven solution for long-term outdoor use.

Fabric Specifications

- Waterproof 300 – 460 mm water column, EN 20811
- High color and weather fastness (7 – 8 of 8)
- Water- and dirt-repellent
- 100% acrylic 285 – 300 g/m²
- Custom branding on canopy and valance possible

Many fabrics are also available in All Weather quality. Waterproof up to 1000 mm water column, EN 20811.

Premium Acrylic ProNature:

Product information

With Acryl ProNature, CARAVITA presents an innovative fabric option with added value: a special finishing treatment actively contributes to improving air quality. Through a photocatalytic process, pollutants such as nitrogen oxides, sulfur oxides, and organic compounds are reduced – while unpleasant odors are neutralized at the same time.

This creates a noticeable contribution to greater sustainable quality of life outdoors. In terms of durability, weather resistance, and technical performance, Acryl ProNature fully matches the proven classic acrylic fabric.

- Waterproof 300 – 370 mm water column, EN 20811
- High color and weather fastness (7 – 8 of 8)
- Water- and dirt-repellent
- 100% acrylic 285 – 300 g/m²
- Custom branding on canopy and valance possible

Tempoteststar FR:

The Tempoteststar fabric collection by PÀRA consists of a flame-retardant textile certified according to the recognized fire protection class B1. The high-quality, 100% solution-dyed polyester is available in a wide range of colors and is particularly suitable for applications where fire safety requirements play a central role.

- Flame-retardant, fire protection class B1 (DIN 4102)
- Oil-, water-, and dirt-repellent
- High color and weather fastness (7 – 8 of 8, DIN EN ISO 105 B04)
- Waterproof 280 – 300 mm water column, UNI EN 20811
- 100% solution-dyed polyester 300 g/m²

Ferrari Precontraint 302

This PVC-coated sun protection membrane is characterized by exceptional durability and strength. It is completely waterproof and meets high flame-retardancy standards – properties that prove particularly valuable in demanding outdoor environments.

- Not suitable for Big Ben Freestyle, Belvedere, Grande
- Flame-retardant, fire protection class B1 (DIN 4102)
- Polyester fabric with PVC coating
- Completely waterproof
- Dirt-repellent
- High color fastness (7 – 8 of 8, DIN EN ISO 105-B02)
- Surface weight 480 g/m²
- Custom branding on canopy and valance possible

Options & Accessories

Wind roof and wind vent:

Wind vent: The sewn-in vent lies on the canopy, lifts in the wind and reduces wind load.

Product information

Wind roof: Features an additional frame. Enhances the appearance and improves wind resistance. Heat can escape upwards, preventing heat build-up.

Valance types:

Flowing valance: Seamless transition from canopy to valance without a visible edge. Moves in the wind.

Attached valance: Visible edge between canopy and valance. Side sections are connected, reducing movement – ideal for advertising umbrellas.

Protective cover in PVC (light grey)

Protective cover in acrylic (light grey or matching canopy color)

Cover rod: Telescopic rod for easy handling when placing the cover.

Mast protection padding: Height 90 cm, padding thickness 4 cm, fastening with Velcro.

Base protection padding

Accessories such as heaters, integrated lighting and motor drives are available for BIG BEN series umbrellas.

Product description

One sunshade - many possibilities! With the new duo and quadro masts you combine up to four Amalfi sunshades on only one pole! Combine the charm of the classic side pole sunshade with the robustness of a large-capacity sunshade.

With a duo pole, two Amalfi parasols can be attached to one and the same pole. Type D1 has a central mast with two winches by which the two parasol canopies can be opened independently of each other. The robust construction (mast tube 70x70x4mm) is available with ground anchorage or with mobile base. The mast is not rotatable.

Amalfi Classic Awning

- Premium awning cloth. Other high-tech outdoor cloths available at extra cost.
- Robust aluminum frame with 50mm mast (3mm wall thickness) and 30x15x2mm struts.
- Frames in all RAL colors of our color chart without extra charge.
- Struts in high gloss finish possible without extra charge.
- Impact-resistant, UV-stabilized plastic rims in white or anthracite gray.
- Includes gray polyester protective cover

Amalfi double mast for Amalfi type D1

- High-power mast - 70x70mm aluminum with 4mm wall thickness - 3-ply welded.
 - Self-stopping winches with 4mm stainless steel cable.
 - Frames in all RAL colors of our color chart without extra charge.
 - Removable stainless steel crank
-

About Caravita

CARAVITA is regarded as the leading brand for high-quality sunshades and sun sails and as a synonym for quality and design. With spans of up to seven meters, the noble large umbrellas create space for all conceivable uses and, thanks to an exceptionally robust construction, can withstand even high wind loads. Innovative mechanisms open each umbrella size as smoothly as on the first day, even after years of use, and ensure easy and convenient handling. CARAVITA parasols are characterized by handcrafted, made-to-measure production. The complete selection of fabric and frame colors can be individually combined. This guarantees - in connection with many other brilliant extras - the fulfillment of highest demands in gastronomy, hotel business and in the private garden.

- Individual design: over 130 fabric and 200 frame colors according to the customer's wishes.
- Durable products: Due to high-quality aluminum and stainless steel components
- Innovative mechanics: Ensures smooth operation for years to come
- High stability: Thanks to above-average wall thickness of pole and struts
- Special shapes made to measure with the Big Ben Freestyle

The living space grows out into the open. Eating, drinking, celebrating, laughing or working outside - there are no limits to individuality. No matter whether on the private balcony or the cozy restaurant terrace. Even in spring, when the first warm rays of sunshine entice people outside, they want to enjoy additional comfort. Indispensable for leisure time in the green are well thought-out trend products in the field of sun protection. This is the only way to create new favorite spots and make outdoor living a year-round pleasure.

- Off-the-peg sunshades? Not at CARAVITA. After all, your requirements and needs are also quite individual. That's why each of our sunshades is custom-made. See for yourself how, with over 30 years of experience and a lot of passion, a high-quality shade provider is created.
