Product information

Flowers. The fabric petals form a canopy where you can relax and enjoy the extravagance of colors. As a breeze playfully blows through the parasol, the petals rustle and come to life in a hypnotic dance. This beautiful designer parasol was designed by Davy Grosemans for Symo Parasols.

2 height options: 240 cm (210 cm under the petals), ideal for sitting or lying down. 260 cm (230 cm under the petals), ideal for standing. The handy Bloom parasol is easy to open and close over the tables and chairs thanks to the specially designed inverted parasol system. No need to disturb guests on your patio to open or close the parasol. All tables and chairs can simply stay where they are while you operate the parasol. Protects from both sun and rain. Guaranteed wind resistant up to 7 Beaufort, depending on the base mounted.
