Product description

Product information

Curl, sizzle, FROU FROU

More fun parasol than ever before. The design is a reaction to the kitschy parasols you see on exotic beaches. When you lie on the beach with your eyes closed under this unique parasol, you can hear the sound of the Mediterranean Sea in the margins. Whether on the terrace of a hotel, restaurant or brasserie, or next to your lounge next to your vacation swimming pool, the Frou Frou parasol will give you a liberating feeling of luxury.

A round parasol with 12 struts and a diameter of 2.5 m.

2 height options: 240 cm (210 cm under the canopy), ideal for sitting or lying down. 260 cm (230 cm under the canopy), ideal for standing.

The handy Frou-Frou parasol is easy to open and close over the tables and chairs thanks to the specially designed inverted parasol system. You no longer need to disturb guests on your patio to open or close the parasol. All tables and chairs can simply stay where they are while you operate the parasol. Protects from both sun and rain. Guaranteed wind resistant up to 7 Beaufort, depending on the base mounted.
