Product description

Designed by Ramón Esteve for Vondom, the Gatsby collection evokes the art deco lighting. Those crazy twenties. "Something new, extraordinary, beautiful, simple, but cleverly designed," said Francis Scott Fitzgerald about his goals for the novel he wanted to write. The Great Gatsby was born in a time of prosperity, parties and plenty. They called it "the American dream." The new Gatsby sofa and planters are rotationally molded from polyethylene and reproduce the shape and feel of etched glass. The channeled exterior surface retains the same fluted glass style of the light fixtures, taking us back to the Art Deco era and the crazy 1920s in the United States.

Watering system & integrated wheels:
Planters with a self-watering system are usually supplied with integrated wheels up to a size of 60cm. The integrated wheels make it easier to move the planter. The watering system ensures perfect care for your plants. The watering system is designed for indoor use only and is not suitable for outdoor use.

Indoor or outdoor use?
Illuminated planters have an integrated and lockable water drain. This means they can be used both indoors and outdoors. Planters without lighting do not have integrated water drainage. When used outdoors, several holes must be drilled with a drill both in the base of the planting area and in the subsoil on which the planter stands to prevent waterlogging.
